

CONTENTS

ORIGINAL ARTICLES

- Sympatho-Adrenal Responses to General Anesthesia in Man and Their Relation to Hemodynamics. *Henry L. Price, Harry W. Linde, Richard E. Jones, Gerald W. Black and Mary L. Price* 563
- Clinical Evaluation of the Cervico-Thoracic Sympathetic Nerve Block in the Management of Some Cerebrovascular Accidents. *T. Poletti, S. Brena, M. Sgarbi and V. Cameron-Curry* 576
- The Effect of Phenglutarimid (Aturbane) on Salivary Secretion in Man. *Gordon M. Wyant and Frank C. Haley* 581
- Associated Movements in Anesthesia: The Winking-Jaw Phenomenon. *Dr. Emilio Bortoluzzi* 585
- Concerning Nausea and Vomiting During Spinal Anesthesia. *Julie S. Crocker and Leroy D. Vandam* 587
- Rapid Determination of Diethyl Ether Levels in Blood. *Dominic Criscuolo, William L. Lee, Jr., Arthur B. Tarrow and Richard J. Ward* 593
- Pulmonary Ventilation and Arterial Oxygen Saturation During Ether-Air Anesthesia. *Etsutaro Ikezono, M. H. Harmel and B. D. King* 597
- Sciatic Nerve Block: Lateral Approach with the Patient Supine. *Kunio Ichiyonagi* 601
- Changes in Blood Pressure and Pulse Rate During Fluothane Anesthesia: A Comparative Clinical Study. *Jack Moyers and Charles B. Pittinger* 605
- Renal Function During Anesthesia for Cardiovascular Surgery. *George C. Morris, Jr., Arthur S. Keats, John H. Moyer and Michael E. De Bakey* 608
- Performance of Absorbents: Effect of Moisture. *Elwyn S. Brown, Veronica Bakamjian and Anne M. Seniff* 613
- A Study of Stellate Ganglion Block for Pain Relief. *Leo J. De Backer, William K. Kienzle and Hugh H. Keasling* 618
- The Rate of Arterial Oxygen Desaturation During Apnea in Humans. *Stanley W. Weitzner, Benton D. King and Etsutaro Ikezono* 624
- The Effect of Sleep on the Respiratory Response to Carbon Dioxide. *J. Weldon Bellville, William S. Howland, John C. Seed and Raymond W. Houde* 628
- Anesthesia LX: The Anesthetic Properties of 1,1,1-Trichloroethane. *John C. Krantz, Jr., Chung S. Park and Johnson S. L. Ling* 635
- The Effect of Reserpine on the Action of Various Vasopressors. *Edmond I. Eger and William K. Hamilton* 641

CONTENTS

A Clinical Study of the Muscle Relaxant—Imbretil. *R. D. Dripps, Edgar C. Hanks, S. H. Ngai, S. R. Oech, E. M. Papper and P. H. Sechzer* 646

Quantitative Study of the Action of Imbretil and Its Modification in Man. *S. H. Ngai, Edgar C. Hanks, B. Raymond Fink, Duncan A. Holaday and E. M. Papper* 653

The Action of Some Antibiotics on the Human Intercostal Nerve-Muscle Complex. *Phiroze B. Sabawala and John B. Dillon* 659

Effect of Cyclopropane and Various Oxytocics on Cardiac Rhythm in the Parturient Woman. *Kunio Ichiyanagi and Lucien E. Morris* 669

The Electroencephalogram in Patients Undergoing Open Heart Surgery with Heart-Lung Bypass. *Harold T. Davenport, G. Arfel and F. R. Sanchez* 674

REVIEW ARTICLE

The Problem of Oozing During Surgery. *Colonel William H. Crosby* 685

EDITORIALS

Stellate Ganglion Blockade and The Cerebral Circulation. *Seymour S. Kety* 697

What Price Tranquilization? *Stuart C. Cullen* 697

What You Read. *James E. Eckenhoff* 698
