

CONTENTS • VOLUME 21

NUMBER 1, JANUARY-FEBRUARY, 1960

Original Articles	Page
Halothane Concentrations in Clinical Anesthesia. <i>R. H. Smith and Perry P. Volpitto</i>	1
The Effect of Arfonad on the Monkey. <i>Jose A. Aguilar and Edwin B. Boldrey</i>	3
Comparison of the Cardiovascular and Respiratory Effects of Halothane and the Halothane-Diethyl Ether Azeotrope in Dogs. <i>Allen B. Dobkin, John H. Harland and Sylvia Fedoruk</i>	13
John Snow's Early Research on Carbon Dioxide. <i>Richard Foregger</i>	20
Local Anesthetic Activity of Partially Hydrolyzed Solutions of Tetracaine Hydrochloride. <i>D. R. VanDeripe and G. K. W. Yim</i>	26
Methohexital Sodium—A New Ultrashort Acting Barbiturate. <i>C. Taylor and V. K. Stoelting</i>	29
Multichannel Electroencephalography in Hypothermia and Circulatory Occlusion. <i>W. Curtis Percy and Robert W. Virtue</i>	35
A Dynamic Concept of the Distribution of Thiopental in the Human Body. <i>Henry L. Price</i>	40
The Value of Oxygenation Prior to Induced Apnea. <i>Mitsugu Fujimori and Robert W. Virtue</i>	46
Potentialiation of the Neuromuscular Effect of Succinylcholine by Hexafluorenum. <i>Francis F. Foldes, N. R. Hillmer, R. E. Molloy and A. P. Monte</i>	50
The Effect of Succinylcholine on Intraocular Pressure in Adults, Infants and Children During General Anesthesia. <i>N. W. B. Craythorne, H. S. Rottenstein and R. D. Dripps</i>	59
Succinylcholine Esterase Activity in Stored Citrated Blood. <i>H. Fielding Fromberg, Walter H. Mannheim and Arthur S. Keats</i>	64
Review Article	
Trichlorethylene Anaesthesia. <i>Richard S. Atkinson</i>	67
Editorials	
The Anesthesia Memorial Foundation	78
Anesthesiologists—Today and Tomorrow. <i>Herman S. Wigodsky</i>	78
Audio Education. <i>John W. Pender</i>	81
Current Comment	
Gadgets. —Valve for Assisted or Controlled Ventilation, 83—Electrostatic Indicator, 83—Arrangement of Accessory Equipment, 86—Automatic Valve, 87. Correspondence. —Metabolic Acidosis, 87—Tuohy Needle, 87—Historical Note, 88	
 "Work in Progress" Abstracts	 89
The Anesthesiologist's Bookshelf	121
Briefs from the Literature	126

NUMBER 2, MARCH-APRIL, 1960

Original Articles	
Hyperventilation with Oxygen—A Possible Cause of Cerebral Hypoxia. <i>Kenneth Sugioka and David A. Davis</i>	135
Dual Neuromuscular Block in Man. <i>H. C. Churchill-Davidson, T. H. Christie and R. P. Wise</i>	144
