

## CONTENTS

## ORIGINAL ARTICLES

- Physiologic Reactions During Profound Hypothermia with Cardio-  
plegia. *C. R. Stephen, Sara J. Dent, K. D. Hall and W. W. Smith* 873
- Pulmonary Function During Spinal Anesthesia: The Mechanism of  
Cough Depression. *Lawrence D. Egbert, Kamil Tamersoy and  
Thomas C. Deas* 882
- Anesthesia for the Asthmatic Patient. *S. M. Shnider and E. M. Papper* 886
- Convulsive Phenomena in Hyperthermic Dogs During Anesthesia.  
*Charles Pittinger, Clifford Mitchell, Fernando Aleu and Wesley  
Page* 893
- Potentialiation of Succinylcholine by Procaine. *Alejandro Stilmann  
Salgado* 897
- 
- Cyclic Variations in Blood Oxygenation with the Respiratory Cycle.  
*Norman A. Bergman* 900
- 
- Pituitary Blockade by Meperidine in Man. *Yong Hyon Han and  
Elwyn S. Brown* 909
- The Chronotropic and Inotropic Effects of Halothane. A Comparison  
of Effects in Normal and Chronically Cardiac Denervated Dogs.  
*Dean H. Morrow, Thomas E. Gaffney and John E. Holman* 915
- Synoptic Interpretation of Continuous ECG and EEG in Anesthetic  
Emergencies. *Kurt O. Leonhardt* 918
- Relationship Between Sympathomimetic Amines and Methylxanthines  
Inducing Cardiac Arrhythmias. *I. Ueda, R. W. Loehning and  
H. Ueyama* 926
- Steroid and Antihistaminic Therapy for Post Intubation Subglottic  
Edema in Infants and Children. *Margery V. Deming and Steffen  
R. Oech* 933
- Operant Behavior During Anesthesia Recovery: A Continuous and  
Objective Method. *Ogden R. Lindsley, John H. Hobika and  
Benjamin E. Etsten* 937
- Effects of Intravenously Administered Succinylcholine on Cardiac  
Rate, Rhythm, and Arterial Blood Pressure in Anesthetized Man.  
*C. H. Williams, S. Deutsch, H. W. Linde, J. W. Bullough and  
R. D. Dripps* 947
- Effects of Surgical Pneumothorax on Pulmonary Ventilation. *John  
J. Bonica, Joseph F. Wilson, David N. Goodson, Thomas Q. Zieg-  
ler, Thomas O. Murphy, John J. Downes and John Takamura* 955

## CONTENTS

A Comparison of Atropine, or Scopolamine, Plus Pentobarbital, Meperidine, or Morphine as Pediatric Preanesthetic Medication. <i>Edmond I. Eger, Edelle D. Kraft and Hugh H. Keasling</i>	962
Electronarcosis by Combination of Direct and Alternating Current. 2. Effects on Dog Brain as Shown by EEG and Microscopic Study. <i>R. H. Smith, Z. W. Gramling, G. W. Smith and P. P. Volpitto</i>	970
The Effect of Digoxin Pretreatment on Heart Contractile Force During Thiopental Infusion in Dogs. <i>Alan H. Goldberg, Harriet M. Maling and Thomas E. Gaffney</i>	974
Interactions of Inert Anesthetic Gases with Proteins. <i>R. M. Featherstone, C. A. Muehlbaecher, F. L. DeBon and J. A. Forsaith</i>	977
The Cardiovascular Effects of Halothane. <i>John E. Mahaffey, Earl E. Aldinger, James H. Sprouse, Thomas D. Darby and Wendell B. Thrower</i>	982
Pharmacologic and Clinical Observations with Mepivacaine. <i>Paul R. Knox, William C. North and C. R. Stephen</i>	987
<b>REVIEW ARTICLE</b>	
The Accidental Intra-Arterial Injection of Thiopental. <i>Hrant H. Stone and Celeste C. Donnelly</i>	995
<b>EDITORIALS</b>	
The Physician and Malpractice Suits. <i>Carl E. Wasmuth</i>	1007
Tubular and Peripheral Vision in the Practice of Anesthesia. <i>Stuart C. Cullen</i>	1008
