

## NUMBER 2, MARCH-APRIL, 1962

## Original Articles

- Blood Carbonic Anhydrase Activity in Anesthetized Man. *George Christian and Nicholas M. Greene* 179
- Synergistic and Antagonistic Effects of Premedication on General Anesthetics in Mice. *Richard P. Carson and Eduard F. Domino* 187
- Clinical Evaluation of Sodium Nitroprusside as a Hypotensive Agent. *Patrick P. Moraca, Elmars M. Bitté, Donald E. Hale, Carl E. Wasmuth and Eugene F. Poutasse* 193
- The Central Regulation of Respiration During Halothane Anesthesia. *B. Raymond Fink, S. H. Ngai and Edgar C. Hanks* 200
- The Value of Prophylactic Digitalization in Halothane Anesthesia. *Alan H. Goldberg, Harriet M. Maling and Thomas E. Gaffney* 207
- The Influence of Solvent on the Myoneural Effects of Intramuscular Succinylcholine. *Francis F. Foldes, Ian M. Brown and John N. Lunn* 213
- The Role of Preliminary Oxygenation Prior to Induction with High Nitrous Oxide Mixtures: Polarographic  $P_{aO_2}$  Study. *Morris L. Heller and T. Richard Watson, Jr.* 219
- Anesthetic Time-Dose Curves. 4. The Influence of Respiratory Parameters Upon Intravenous Drug Requirements During Surgical Procedures. *Michael Keéri-Szanto and Claude Leduc* 231
- Methoxyflurane—A Clinical Evaluation. *Paul R. Knox, William C. North and C. R. Stephen* 238
- Blood Levels and Cardiovascular Dynamics During Methoxyflurane Inhalation in Dogs. *Ervin E. Bagwell, Eugene F. Woods and Richard H. Gadsden* 243
- Hepatic and Renal Effects of Methoxyflurane in Dogs. *James O. Calc, Colby R. Parks and M. T. Jenkins* 248

## Review Article

- Vomiting and Aspiration During Anesthesia. *William K. Bannister and Anthony J. Sattilaro* 251

## Editorial Views

- Unjustified Distractions. *John W. Pender* 265

## Current Comment

Localized-Convulsion Electroconvulsive Treatment, 266—Radiation Exposure, 267. **Gadget.**—Holder for Blood Pressure Manometer, 269. **Case Reports.**—Refsum's Disease, 269—Reaction to Thiopental, 271. **Correspondence.**—Function of the Anesthesiologist, 272.

- The Anesthesiologist's Bookshelf 273

- Literature Briefs 278

## NUMBER 3, MAY-JUNE, 1962

## Original Articles

- Cause of Pain from a Pneumatic Tourniquet During Spinal Anesthesia. *L. D. Egbert and T. C. Deas* 287
- Comparison of Concentration of Halothane in Closed and Semiclosed Circuits During Controlled Ventilation. *Dennis W. Hill and Harry J. Lowe* 291
- Hemodynamic Actions of Diethyl Ether in Normal Man. *R. E. Jones, H. W. Linde, S. Deutsch, R. D. Dripps and H. L. Price* 299
- Hemodynamic Effects of Diethyl Ether in Man. *Yukio Kubota, Hans J. Schweizer and Leroy D. Vandam* 306
- Measurement of Inspiratory Force in Anesthetized Dogs. *H. H. Bendixen and J. P. Bunker* 315

Neostigmine as a Curare Antagonist. A Clinical Study. <i>D. A. Wescott and H. H. Bendixen</i>	324
Effects of Intravenous Atropine and Scopolamine During Cyclopropane-Succinylcholine Anesthesia. <i>E. Colón-Yordán and José L. Jiménez-Vélez</i>	333
Epinephrine-Induced Arrhythmias: Effect of Carbon Dioxide and Acid-Base Changes. <i>Issaku Ueda, Kazuaki Fukushima, Carter M. Ballinger and Robert W. Lochning</i>	342
The Solubility of Halothane in Blood and Tissue Homogenates. <i>C. P. Larson, Jr., E. I. Eger, II, and J. W. Severinghaus</i>	349
The Solubility of Halothane in Rubber, Soda Lime and Various Plastics. <i>Edmond I. Eger, II, C. Philip Larson, Jr., and John W. Severinghaus</i>	356
The Injection of Epinephrine During General Anesthesia With Halogenated Hydrocarbons and Cyclopropane in Man. 1. Trichlorethylene. <i>Richard S. Matto, Ronald L. Katz and E. M. Papper</i>	360

## Review Article

Atropine, Scopolamine, and Related Compounds. <i>Edmond I. Eger, II</i>	365
---	-----

## Editorial Views

A Consideration of Control in Research. <i>Albert Faulconer, Jr.</i>	384
<i>The New England Journal of Medicine.</i> <i>James E. Eckenhoff</i>	386
The Hydrocarbon-Epinephrine Disturbance in Man. <i>Leroy D. Vandam</i>	388

## Current Comment

**Gadgets.**—Halothane Analyzer, 391—Modification of Laryngoscope Blade, 394—Transfusion Pump, 395—Device for Immersion Hypothermia, 395. **Case Report.**—Obstruction From Thoracic Aneurysm, 396. **Correspondence.**—Air Embolism, 398—Correction, 398.

## NUMBER 4, JULY-AUGUST, 1962

### Symposium—Inhalational Therapy

Historical Background. <i>Alvan L. Barach</i>	407
Pulmonary Function and Tests for Ventilatory Adequacy. <i>Robert A. Mitchell</i>	422
Clinical Significance of Reflexes from the Respiratory System. <i>J. G. Widdicombe</i>	434
Oxygen Therapy. Catheter, Mask, Hood and Tent. <i>William F. Miller</i>	445
Humidity in Inhalational Therapy. <i>Ralph M. Tovell and Dominic C. D'Ambruoso</i>	452
Aerosols, Bronchodilators and Mucolytic Agents. <i>Frank W. Lovejoy, Jr., and Paul E. Morrow</i>	460
Oxygen Toxicity. <i>Arthur R. DuBois</i>	473
Intermittent Positive Pressure Breathing. <i>Ellison C. Pierce, Jr., and Leroy D. Vandam</i>	478
Automatic Lung Ventilators. <i>Duncan A. Holaday and Christen C. Rattenborg</i>	493
Asepsis for Inhalational Therapy. <i>Ruth B. Kundsins and Carl W. Walter</i>	507
Inhalational Therapy for Chronic Lung Disease. <i>Maurice S. Segal, Norman Traverse and Mauricio J. Dulfano</i>	513
The Emergency Treatment of Acute Respiratory Failure. <i>Matthew Spence</i>	524
Acute Chemical Injury of the Airway and Lungs. Experience with Six Cases. <i>Eugene H. Conner, Arthur R. DuBois and Julius H. Comroe, Jr.</i>	538
Inhalational Therapy in Pediatrics. <i>Robert M. Smith</i>	548
The Respiratory Care Unit. <i>Martin H:son Holmdahl</i>	559
An Inhalational Therapy Service. <i>Meyer Saklad</i>	569
