EDITORIAL VIEWS

- The Cultural Component. *Richard M. Millard* 421

SYMPOSIUM—ANESTHETICS AND ENDOCRINE FUNCTION

- Introduction. *Leroy D. Vandam* 423
- Physiologic, Pharmacologic and Therapeutic Considerations in Surgery for Hyperthyroidism. *Herbert A. Selenkow and Charles S. Hollander* 425
- Physiology and Pharmacology in Diabetes Mellitus: Guiding the Diabetic Patient Through the Surgical Period. *Alexander Marble and Jurgen Steinke* 442
- Hyperparathyroidism and Hypoparathyroidism: Preoperative and Postoperative Care. *Daniel S. Bernstein and Charles D. Guri* 448
- Present Status of the Problem of Iatrogenic Adrenal Cortical Insufficiency. *Don H. Nelson* 457
- Pheochromocytoma: Diagnosis and Anesthetic and Surgical Management. *Alan Goldfen* 462
- Preoperative and Postoperative Management of Adrenal Cortical Hyperfunction. *George F. Cahill, Jr., and George W. Thorn* 472
- Diagnosis and Treatment of Renal Hypertension of Humoral Origin. *John P. Merrill* 479
- Renal Effects of Anesthesia and Operation Mediated by Endocrines. *Mark A. Hayes and Ira S. Goldenberg* 487
- The Effects of Preanesthetic Medication, Anesthesia and Hypothermia on the Endocrine Response to Injury. *E. E. Van Brunt and W. F. Ganong* 500
- Neuroendocrine and Other Effects on Carbohydrate Metabolism During Anesthesia. *John P. Bunker* 515

(Continued from page 2)

CONTENTS

Pharmacology of Reserpine and Its Implications for Anesthesia. <i>Milton H. Alper, Werner Flacke and Otto Krayer</i>	524
Pharmacologically Active Brain Substances and Their Relation to Endocrine Effects. <i>E. Leong Way and V. C. Sutherland</i>	543
Endocrine Consequences of Hypophysectomy. <i>Olof H. Pearson</i>	563
Effects of Anesthetics on the Response of the Microcirculation to Circulating Humors. <i>Silvio Baez and Louis R. Orkin</i>	568

CURRENT COMMENT

The Effect of Mainstream Nebulization on Oxygenation with IPPB. <i>Thomas F. Hornbein and Robert E. Stanell</i>	580
Multiple Autoclaving of Commercial Local Anesthetic Solutions Containing Dilute Epinephrine. <i>Rudolph H. deJong</i>	582
Subarachnoid Block with Phenol-Glycerine for the Relief of Intractable Pain. <i>William F. Kennedy, Jr., and Toshio Akamatsu</i>	584
Treatment of Laryngospasm by Digital Elevation of Tongue. <i>Lester C. Mark</i>	585
Gadgets. The Beck-Rand External Cardiac Compression Machine. <i>Peter Safar and Leroy C. Harris, Jr.</i>	586
An Improved ECG Luer-Lok Adaptor. <i>Samuel M. Ross</i>	588
A Modified Tongue Blade for Adenotonsillectomy. <i>William H. Barbee</i>	590
Case Report. Massive Pulmonary Embolism. <i>Committee on Clinical Anesthesia Study Commissions</i>	590
Correspondence. The Teaching of Anesthesiology. <i>Allen E. Yeakel, 592—Halothane and Hepatic Necrosis. Robert A. Berman, 593; D. Drummond Hart, 593; Michael Keéri-Szanto, 594; K. G. Green, 595</i>
