

## CONTENTS

## EDITORIAL VIEWS

- In Praise of Ignorance—Sometimes. *Mark D. Altschule* 121
- More Light on Rauwolfia. *Leroy D. Vandam* 122

## ORIGINAL ARTICLES

- Effects of Atropine and Scopolamine on the Cardiovascular System. *J. S. Gravenstein, Thorkild W. Andersen and C. B. De Padua* 123
- Physiologic Studies Following Closed-Chest Technique of Profound Hypothermia in Neurosurgery. *John D. Michenfelder, Collin S. MacCarty and Richard A. Theye* 131
- The Effect of Sleep plus Morphine on the Respiratory Response to Carbon Dioxide. *William H. Forrest, Jr., and J. Weldon Bellville* 137
- Anesthesia, Surgery and Rauwolfia. *Ronald L. Katz, Herbert D. Weintraub and E. M. Papper* 142
- Influence of Reserpine on Cardiovascular and Sympatho-Adrenal Responses to Cyclopropane Anesthesia in the Dog. *E. E. Bagwell, E. F. Woods and G. G. Durst, Jr.* 148
- Systemic and Coronary Hemodynamic Effects of Trimethaphan Camphorsulfonate (Arfonad) in the Dog. *George G. Rowe, Skoda Afonso, Jorge E. Lugo and William C. Boake* 156
- The Response of Infants and Children to Muscle Relaxants. *Hak Suh Lim, Harold T. Davenport and J. G. Robson* 161
- The Length of the Airway to the Bifurcation of the Trachea. *Richard R. Schellinger* 169
- The Use of Trimethylammoniumcaproylcholine for the Maintenance of Surgical Relaxation. *Francis F. Foldes, George M. Davidson, Deborah H. Klonymus, Deryck Duncalf and Takayo Matsuzaki* 173
- Cerebral Circulation of Man During Halothane Anesthesia. Effects of Hypocarbica and of *d*-Tubocurarine. *H. Wollman, S. C. Alexander, P. J. Cohen, P. E. Chase, E. Melman and M. G. Behar* 180

## CONTENTS

|   |     |
|---|-----|
| Cerebral Carbohydrate Metabolism in Man During Halothane Anesthesia. Effects of $P_{aCO_2}$ on Some Aspects of Carbohydrate Utilization. <i>P. J. Cohen, H. Wollman, S. C. Alexander, P. E. Chase, and M. G. Behar</i>  | 185 |
| WORKSHOP ON INTENSIVE CARE UNITS. <i>National Academy of Science—National Research Council, Committee on Anesthesia</i>   | 192 |
| <b>TECHNICAL NOTE</b>   |     |
| Solubility Coefficients of Teflurane in Various Biological Media. <i>Gerald Edelist, Morley M. Singer and Edmond I. Eger, II</i>  | 223 |
| <b>SPECIAL ARTICLE</b>  |     |
| The Specialty of Anesthesiology. Its Growth in the United States Since 1940. <i>D. Vernon Thomas</i>  | 226 |
| <b>CURRENT COMMENT</b>  |     |
| The Cost of Anesthesia with Fluroxene. <i>Robert W. Virtue and David S. LeVine</i>  | 236 |
| Continuous Intercostal Blocks. <i>R. J. Defalque and V. K. Stoelting</i>  | 237 |
| Gadgets. A Modified Nonbreathing System. <i>Shaotsu Lee</i>   | 238 |
| Aerosolization of Drugs During Inhalation Anesthesia. <i>George A. Small</i>  | 239 |
| A New Pop-Off Valve. <i>Shaotsu Lee</i>   | 240 |
| A New Needle for Controlled Spinal Drainage. <i>Joseph A. Epstein, Bernard S. Epstein and Sylvan Surks</i>  | 242 |
| Case Report. Anaphylaxis Associated with the Use of Dextran. <i>David A. E. Shepard and Leroy D. Vandam</i>   | 244 |
| Correspondence. Solubility of Diethyl Ether. <i>Edmond I. Eger, II, 247</i><br>—Tourniquet Pain. <i>Lawrence D. Egbert, 247; Rudolph H. de Jong, 248</i><br>—Complications with Laryngectomy Tube. <i>John C. Snow, 249</i><br>—Toxicity of Intravenous Procaine. <i>J. Eugene Ruben, 249</i> |     |
| <b>THE ANESTHESIOLOGIST'S BOOKSHELF</b>   | 250 |
| <b>LITERATURE BRIEFS</b>  | 253 |
