

## CONTENTS

## EDITORIAL VIEWS

- A Matter of Definition. *E. M. Papper* 969  
 Clinical Workshop. *S. G. Hershey* 973

## ORIGINAL ARTICLES

- The Respiratory Effects of Carbon Dioxide in the Cat. *Lawrence W. Raymond and Frank G. Standart* 974  
 The Effect of d-Tubocurarine on Respiratory Resistance in Anesthetized Man. *Hans U. Gerbershagen and Norman A. Bergman* 981  
 The Effect of Vasodilatation on Metabolic and Hemodynamic Parameters During and After Cardiopulmonary Bypass. *Thomas M. Glushien and Leroy C. Harris, Jr.* 985  
 Minimum Alveolar Concentrations of Methoxyflurane, Halothane, Ether, and Cyclopropane in Man: Correlation with Theories of Anesthesia. *Lawrence J. Saidman, Edmond I. Eger, II, Edwin S. Munson, Arthur A. Babad and Musa Muallem* 994  
 The Electroencephalogram as a Monitor of Arterial Blood Levels of Methoxyflurane. *B. Wolfson, E. S. Siker, II, E. Ciccarelli, G. H. Gray, Jr., and L. Jones* 1003  
 The Interactions of Neuromuscular Blocking Agents in Man: The Role of Hexafluorenum. *T. A. G. Torda, F. F. Foldes, R. J. Bailey, D. H. Klonymus and S. Kucabara* 1010  
 The Effects of Methoxyflurane on Ventilation in Man. *Burdett S. Dunbar, Andranik Ovassapian and Theodore C. Smith* 1020  
 Integrated Phrenic Activity in Hypercapnia and Hypoxia. *Adriana Garcia and Neil S. Cherniack* 1029  
 The Potentiation of Neuromuscular Blocking Agents by Quinidine. *Ronald D. Miller, Walter L. Way and B. G. Katzung* 1036  
 Myocardial and Total Oxygen Consumption with Halothane. *Richard A. Theye* 1042

## SPECIAL ARTICLE

- The In-Vitro and In-Vivo Carbon Dioxide Dissociation Curves of True Plasma: A Theoretical Analysis. *Albert Roos and Lewis J. Thomas, Jr.* 1048

## CONTENTS

## LABORATORY METHODS

- Direct Injection Method for Gas Chromatographic Measurement of Inhalation Anesthetics in Whole Blood and Tissues. *Terukazu Yokota, Yasumitsu Hitomi, Kosuke Ohta and Futami Kosaka* 1064

## E. A. ROVENSTINE MEMORIAL LECTURE

- Regional Anesthesia—A Critical Assessment of Its Place in Therapeutics. *E. M. Papper* 1074

## CLINICAL WORKSHOP

- A Pharmacogenetic Study of a Family Exhibiting Atypical and "Silent" Genes for Plasma Cholinesterase. *Edward A. Ernst and J. Crispin Smith* 1085

- Pulmonary Surfactant: Determinations from Lung Extracts of Patients Receiving Diethyl Ether or Halothane. *R. N. Miller and P. A. Thomas* 1089

- Central Venous Pressures via Peripheral Veins. *Marsh H. Holt* 1093

- Influence of Various Pressure and Flow Rate Settings of Pressure-Cycled Respirators on Minute Volumes, Expired  $PO_2$  and  $PCO_2$  of Normal Men During IPPB. *R. Stressemann* 1096

- A Modified Cuvette Densitometer. *G. R. Kelman and C. Prys-Roberts* 1101

- A Convenient and Accurate Nebulizer. *Martin I. Gold* 1102

- Case Reports. Management of Hemorrhage Following Induced Hypotension. *M. R. Salem and A. A. El Etr* 1104

- An Unexpected Complication (Hypothermia) While Using the Emerson Postoperative Ventilator. *Terry J. Kirch and Thomas J. DeKornfeld* 1106

- Relief of Arterial Spasm by Epidural Block in a Sympathectomized Patient. *Adel A. El Etr* 1107

## CORRESPONDENCE

- Patient Consent. *B. Raymond Fink, 1109—Robert D. Dripps, 1109*  
 Metabolic Effects of Blood Transfusion: Acid-Base Balance. *John P. Bunker, 1110*
