

## CONTENTS

<b>EDITORIAL VIEWS</b>	
Anesthetics and Cell Division. <i>Nikaan B. Andersen</i>	361
<b>ORIGINAL ARTICLES</b>	
Occupational Exposure of Anesthetists to Halothane, Nitrous Oxide and Radiation. <i>Harry W. Linde and David L. Bruce</i>	363
Epinephrine-Cyclopropane Effects on Purkinje Fibers. <i>L. D. Davis, J. V. Temte, and Q. R. Murphy</i>	369
Properties of Passive Exhalations in Anesthetized Subjects. <i>Norman A. Bergman</i>	378
The Pulmonary Exchange of Nitrous Oxide and Halothane in Infants and Children. <i>Ernest Salanitro and Herbert Rackow</i>	388
The Effect of Metabolic Acidosis on the CO <sub>2</sub> Titration Curve. <i>John C. Mithoefer, Owen G. Bossman, and Donald W. Thibeault</i>	395
The Effect of Halothane on the Cell Cycle in Rat Small Intestine. <i>David L. Bruce and Harold H. Traurig</i>	401
The Relationship between Physiologic Shunt and Cardiac Output in Dogs under General Anesthesia. <i>Hideo Yamamura, Kaoru Kaito, Kazuyuki Ikeda, Masayoshi Nakajima, Kazuo Okada</i>	406
Electrolyte Changes in Human Drowning Victims. <i>Jerome H. Modell and Joseph H. Davis</i>	414
Serum Electrolyte Concentrations after Fresh-water Aspiration: A Comparison of Species. <i>Jerome H. Modell, Terry C. Weibley, Bruce C. Ruiz, and Earlene J. Newby</i>	421
Central Sympathetic Excitation Caused by Cyclopropane. <i>Henry L. Price, John C. Warden, Lee H. Cooperman, and Ronald A. Millar</i>	426
<b>MEDICAL INTELLIGENCE</b>	
Oxidative Phosphorylation in Acute Hyperthermia. <i>Josef K. Wang, Emerson A. Moffitt, and John W. Rosevear</i>	439
Hazards of General Anesthesia in the Reserpinized Patient. <i>Alan Jay Ominsky and Harry Wollman</i>	443
<b>ANNALS OF ANESTHETIC HISTORY</b>	
The Early Pneumatic Chemists and Physicians: Their Influence on the Development of Surgical Anesthesia. <i>Thomas E. Keys</i>	447
<b>CLINICAL WORKSHOP</b>	
Blood Gas Studies during Laparoscopy under General Anesthesia. <i>Robert A. Baratz and Joannes H. Karis</i>	463
Viral and Bacterial Contamination of Multiple-dose Drug Vials Kept in Anesthesia Machines. <i>W. Clayton Petty, John P. Heggors, Dorothy F. Shelton, and Max K. Mendenhall</i>	465
Simplified Versions of the Shunt and Oxygen Consumption Equations. <i>J. M. Leigh, M. F. Tyrrell, and D. A. P. Strickland</i>	468
Case Reports. Unusual Cardiovascular Stability during Deep Halothane Anesthesia. <i>Harry J. Lowe and Alfred Feingold</i>	471
Hyperthermia under Anesthesia with Regional Muscle Flaccidity. <i>Julian H. Satnick</i>	472
<b>CORRESPONDENCE</b>	
Adrenal Venous Catecholamines during Methoxyflurane Anesthesia. <i>Gerald A. Gronert, 475; Tsung-Han Li, 475</i>	
<b>LITERATURE BRIEFS</b>	476
Anesthesia, 368, 413—Drugs, 438—Surgery, 474, 475
