

CONTENTS

EDITORIAL VIEWS

- Cyclopropane Anesthesia and Plasma Norepinephrine Levels. *C. N. Gillis* 1
- Clinical Pharmacology of the Neuromuscular Junction. *William L. Nastuk* 3
- Obstetrical Caudal Anesthesia: I. A Randomized Study Comparing 1% Mepivacaine with 1% Lidocaine plus Epinephrine. *Ronald E. Gunther and Jack Bauman* 5
- Myocardial Metabolism in the Halothane-depressed Canine Heart. *Robert G. Merin* 20
- Cardiac Output and Postganglionic Sympathetic Activity during Acute Respiratory Alkalosis. *Walter G. Moser, Charles E. Reier, Robert W. Gardier, and William Hamelberg* 28
- The Response of Newborns to Succinylcholine and *d*-Tubocurarine. *Leonard F. Walts and John B. Dillon* 35
- Clinical Studies of the Interaction between *d*-Tubocurarine and Succinylcholine. *Leonard F. Walts and John B. Dillon* 39
- The Uptake and Release of Norepinephrine: Effects of Cyclopropane and Halothane. *S. H. Ngai, Pedro M. Diaz, and Sidney Ozer* 45
- The Effects of Cyclopropane and Halothane on the Biosynthesis of Norepinephrine in Vivo: Conversion of ¹⁴C-Tyrosine to Catecholamines. *S. H. Ngai, N. H. Neff, and E. Costa* 53
- Application of Low-temperature Autoradiography to Studies of the Uptake and Metabolism of Volatile Anesthetics in the Mouse: II. Diethyl Ether. *Ellis N. Cohen and Nancy Hood* 61
- The Effects of Nondepolarizing Relaxants and Anticholinesterases on the Neuromuscular Refractory Period of Anesthetized Man. *Ralph A. Epstein, Stephen H. Jackson, and Steven R. Wyte* 69

MEDICAL INTELLIGENCE

- Prenarcotic Doses of Barbiturates as an Aid in Localizing Diseased Brain Tissue. *Mary A. B. Brazier* 78

CLINICAL WORKSHOP

- A New Automatic Nonbreathing Valve. *Teizo Hirano and Takao Saito* 84
- Transcutaneous Doppler Measurement of Blood Pressure. *Robert R. Kirby, William T. Kemmerer, and John L. Morgan* 86
- Methylphenidate for the Treatment of Hiccups during Anesthesia. *George A. Gregory and Walter L. Way* 89
- A Fused Monitor Cable—Protection against Electrical Shock and Burns. *Arnold St. J. Lee* 91
- Case Reports. Reversal of Chloral Hydrate-associated Cardiac Arrhythmia by a Beta-adrenergic Blocking Agent. *Anthony J. Di-Giovanni* 93
- Malignant Hyperthermia during Anesthesia. *Leonard S. Capizzi, Otto C. Phillips, and Leroy C. Harris, Jr.* 97

LITERATURE BRIEFS

- Drugs, 34, 52—Muscle, 60—Nervous System, 68—Obstetrics and Pediatrics, 83
