

## CONTENTS

## EDITORIAL VIEWS

- Autonomic Vasomotor Tone in the Pulmonary Circulation. *Alfred P. Fishman* 1

## ORIGINAL ARTICLES

- Pulmonary Vasomotor Tone during General Anesthesia and Deliberate Hypotension in Man. *Nabil R. Fahmy, Adrian S. Selwyn, Dinesh Patel, and Demetrios G. Lappas* 3
- Nitroglycerin Infusion during Coronary-artery Surgery. *Joel A. Kaplan, Ronald W. Dunbar, and Ellis L. Jones* 14
- Partial Paralysis with *d*-Tubocurarine and the Ventilatory Response to CO<sub>2</sub>: An Example of Respiratory Sparing? *Thomas J. Gal and Theodore C. Smith* 22
- Incidence of Respiratory Allergy Not Increased after Anesthesia in Infancy. *Anne Jones, D. J. Steward, G. J. Donsky, R. P. Orange, and T. Milko* 29
- Halothane and Calcium Interaction in Isolated Pregnant and Postpartum Rat Myometrium. *Nicholas J. Naftalin, W. P. C. Phear, and Alan H. Goldberg* 31
- Arterial and Venous Plasma Levels of Bupivacaine Following Epidural and Intercostal Nerve Blocks. *Daniel C. Moore, Laurence E. Mather, Phillip O. Bridenbaugh, L. Donald Bridenbaugh, Robert I. Balfout, Donald F. Lysons, and William C. Horton* 39
- Peripheral Vascular versus Direct Cardiac Effects of Calcium. *Theodore H. Stanley, Jesus Isern-Amaral, Wen-Shin Liu, Judd K. Lunn, and Scott Gentry* 46
- Halothane Depresses Mucociliary Flow in the Trachea. *A. R. Forbes* 59
- Anesthetics and Cerebral Edema. *Allan L. Smith and Jeffrey J. Marque* 64
- Cardiovascular and Respiratory Changes in Response to Change of Posture in the Very Obese. *Douglas R. Paul, John L. Hoyt, and Azmy R. Boutros* 73
- MEDICAL INTELLIGENCE**
- Anesthetic Pollution: What Is Happening to Us? *B. Raymond Fink and Bruce F. Cullen* 79
- LABORATORY REPORT**
- Clindamycin Enhances a Nondepolarizing Neuromuscular Blockade. *Laurence D. Becker and Ronald D. Miller* 84

## CONTENTS

(Continued from page 4)

## CLINICAL REPORTS

- Maternal and Neonatal Plasma Inorganic Fluoride Levels after Methoxyflurane Analgesia for Labor and Delivery. *Richard B. Clark, Alice G. Beard, Dola S. Thompson, and David L. Barclay* 88
- Superior Vena Caval and Bronchial Obstruction during Anesthesia. *Alan S. Tonnesen and Fred G. Davis* 91
- Hypoxia as a Manifestation of Neurogenic Pulmonary Dysfunction. *Lance K. Parks and Norman A. Bergman* 93
- The Psoas Compartment Block. *D. Chayen, H. Nathan, and M. Chayen* 95
- Management of Critical Airway Obstruction in a Child with a Mediastinal Tumor. I. *David Todres, Steven M. Reppert, Peter F. Walker, and Hermes C. Grillo* 100
- Inflowing Gas Leak, A Potential Source of Hypoxia. *Michael Mulroy, Jay Ham, and Edmond I. Eger, II* 102

## CORRESPONDENCE

- Falsely High Blood Oxygen Content by the Van Slyke-Neill Method. *Richard A. Theye, 105; Myron B. Laver and Nabil R. Fahmy, 105*
- Early Use of Enflurane in Obstetrics. *Richard B. Clark* 106
- Identifying Patients Who Need Extra Heparin. *Terry S. Vitez* 107
- Disposable EKG Pads for Peripheral Nerve Stimulation. *Alex F. Pue* 107

## BOOK REVIEWS 109

## LITERATURE BRIEFS 112

- Local Anesthesia, 13—Obstetrical Anesthesia, 63—Pain Therapy, 104

## GUIDE FOR AUTHORS
