EDITORIAL VIEWS

- Perianesthetic Ischemic Episodes Cause Myocardial Infarction in Humans—A Hypothesis Confirmed. 103
Edward Lowenstein

ORIGINAL ARTICLES

- Does Perioperative Myocardial Ischemia Lead to Postoperative Myocardial Infarction? 107
Stephen Slogoff and Arthur S. Keats
- Membrane Disordering Effects of Anesthetics Are Enhanced by Gangliosides. 115
R. Adron Harris and Gordon I. Groh
- Reduced Anesthetic Requirement after Electrical Stimulation of Periaqueductal Gray Matter. 120
Michael F. Roizen, Philippa Newfield, Edmond I. Eger II, Yoshio Hosobuchi, John E. Adams, and Sharon Lamb
- Comparison of Histamine Release in Human Skin Mast Cells Induced by Morphine, Fentanyl, and Oxymorphone. 124
Jeanne M. Hermens, J. Mark Ebertz, Jon M. Hanifin, and Carol A. Hirshman
- Effectiveness of Sodium Nitroprusside as a Function of Total Peripheral Resistance in the Anesthetized Dog. 130
Gregory I. Voss, Peter G. Katona, and Paul J. Dauchot
- The Influence of Halothane and Isoflurane on Pulmonary Collateral Ventilation. 135
Christian M. Alexander, Linda Chen, Roberta Ray, and Bryan E. Marshall
- Lidocaine Constricts or Dilates Rat Arterioles in a Dose-dependent Manner. 141
Roger A. Johns, Cosmo A. DiFazio, and David E. Longnecker
- The Effects of Ketamine on Venous Capacitance in Rats. 145
Sumio Hoka, Akira Takeshita, Kunihiko Yamamoto, Naoya Ito, and Junichi Yoshitake
- Cardiovascular Responses to Hemodilution and Controlled Hypotension in the Dog. 149
J. L. Plewes and L. E. Farhi
- Regional Myocardial Lidocaine Concentration Determines the Antidysrhythmic Effect in Dogs after Coronary Artery Occlusion. 155
Richard F. Davis, Lawrence W. V. DeBoer, Tsunehiro Yasuda, Robert E. Rude, Lair G. T. Ribeiro, and Peter R. Maroko
- The Pharmacokinetics of *d*-Tubocurarine with Surgery Involving Salvaged Autologous Blood. 161
Colin A. Shanks, Michael J. Avram, Ann K. Ronai, and Dennis J. Bowsher
- Postsystolic Shortening of Canine Left Ventricle Supplied by a Stenotic Coronary Artery when Nitrous Oxide Is Added in the Presence of Narcotics. 166
Daniel M. Philbin, Pierre Föëx, Garfield Drummond, Edward Lowenstein, W. Alan Ryder, and Lee A. Jones

CONTENTS

SPECIAL ARTICLE

- A Modification in the Training Requirements in Anesthesiology: Requirements for the Third Clinical Anesthesia Year. 175
American Board of Anesthesiology

LABORATORY REPORT

- Antimicrobial Activity of Bupivacaine and Morphine. 178
Per H. Rosenberg and Olli V. Renkonen

CLINICAL REPORTS

- Successful Treatment of Accelerated Junctional Rhythm with Propranolol: Possible Role of Sympathetic Stimulation in the Genesis of this Rhythm Disturbance. 180
Michael J. Breslow, Alex S. Evers, and Phillip Lebowitz
- Gastroduodenal Reflux of Irrigating Solution during Percutaneous Lithotripsy for Intrahepatic Cholelithiasis. 182
Mark Harris, William R. Kimball, Hugh H. Young II, and Rodney Butch
- Upper Airway Obstruction Following Cyst-to-peritoneal Shunt in a Child with a Dandy-Walker Cyst. 183
James F. Mayhew, Michael E. Miner, and James Denny
- Ventricular Tachycardia Resulting from Central Venous Catheter Tip Migration Due to Arm Position Changes: Report of Two Cases. 185
Gregory W. Kasten, Eddie Owens, and Douglas Kennedy
- The Use of Magnesium Sulfate in the Anesthetic Management of Pheochromocytoma. 188
M. F. M. James
- Airway Management in a Patient with Sleep Apnea Using a Permanent Silicone Tracheal Cannula. 190
Frederick A. Hensley, Jr., Michael T. Snider, Michael A. Orsini, and Roger J. Cadieux
- Cerebrospinal Fluid Concentration of 5-Hydroxyindoleacetic Acid in Pregnancy. 193
Fred J. Spielman, Robert A. Mueller, and Barry C. Corke
- Does Hyperkalemia Contraindicate the Use of Bupivacaine or the Use of Succinylcholine to Treat Bupivacaine-induced Toxicity in Humans? 195
Daniel C. Moore and L. Donald Bridenbaugh
- Changes in Serial Platelet Counts Following Massive Blood Transfusion in Pediatric Patients. 197
Charles J. Coté, Letty M. P. Liu, Stanislaw K. Szyfelbein, Nishan G. Goudsouzian, and Alfred L. Daniels
- Hypothermic Cardiopulmonary Bypass and Neuromuscular Blockade by Pancuronium and Vecuronium. 201
W. Buzello, D. Schluermann, M. Schindler, and G. Spillner

CORRESPONDENCE

- Concerning the Possible Nature of Reported Fentanyl Seizures. 205
James L. Benthuyssen and Theodore H. Stanley

(Continued on page 7)

GUIDE TO AUTHORS

The Guide for Authors is published in the January and July issues. Please refer to the Guide for the preparation of any material for submission to ANESTHESIOLOGY.

ANESAV is a code word ("coden") used by the Chemical Abstract Service to identify the journal.
