

Anesthesiology

CONTENTS

**Abstracts of Scientific Papers
1990 Annual Meeting
American Society of Anesthesiologists**

AMBULATORY ANESTHESIA I

Timing of Preoperative Evaluation for Surgical Outpatients: Does it Matter? Part Two.	A1
<i>R. S. Twersky, D. Frank, and A. Lebovits</i>	
Spinal Anesthesia with 27-Gauge Needles for Ambulatory Surgery Patients.	A2
<i>S. B. Kang, D. E. Goodnough, Y. K. Lee, R. A. Olson, and L. S. Krueger</i>	
Intraoperative and Postoperative Analgesia in Children Undergoing Inguinal Herniorrhaphy: A Comparison of Caudal Bupivacaine 0.125% and 0.25%.	A3
<i>L. J. Rice, R. R. Binding, G. C. Vaughn, R. Thompson, and K. Newman</i>	
Propofol Versus Midazolam for Sedation: A Comparison of Recovery Parameters.	A4
<i>M. Pratila, M. Fischer, R. Alagesan, R. Alagesan, R. Reinsel, and D. Pratila</i>	
Intraperitoneal Local Anesthetics and Scapular Pain Following Daycase Laparoscopy.	A5
<i>P. Narchi, G. Lecoq, H. Fernandez, and D. Benhamou</i>	
Oral Effervescent Cimetidine in Daycase Anesthesia: Effects on Gastric pH and Volume.	A6
<i>P. Narchi, D. Edouard, P. Bourget, I. Cattaneo, X. Petit, and D. Benhamou</i>	
Intravenous Lidocaine Does Not Prevent Postoperative Vomiting in Pediatric Strabismus Patients.	A7
<i>S. K. Woelfel</i>	
Sedation-Analgesia for Outpatient Lithotripsy: Ketamine Versus Alfentanil.	A8
<i>T. G. Monk, J. Rader, B. Boure, and P. F. White</i>	
Psychomotor Recovery After Desflurane Versus Isoflurane in Outpatients.	A9
<i>A. F. Ghouri, M. Bodner, and P. F. White</i>	
Perioperative Substance P (SP) Levels and Incidences of Pain and Nausea and Vomiting (NV) Inhibition of Acetylcholinesterase.	A10
<i>J. Kambam, S. Blanks, R. Alhaddad, R. Naukam, and R. Stowe</i>	
Desflurane Versus Isoflurane With or Without N ₂ O for Outpatient Laparoscopy.	A11
<i>K. Zahl, K. Prasad, M. Mingus, and A. Shapiro</i>	

- Therapeutic Role of Esmolol in Perioperative Hypertension in Ambulatory Surgery. A12
I. Dimich, P. Singh, I. Sampson, V. Pratilas, and N. Sonnenklar

AMBULATORY ANESTHESIA II

- Ranitidine: Role of Dose and Time Effect Study for Prophylaxis of Perioperative Acid Aspiration. A13
H. R. Vinik and S. Covarrubias
- Antiemetic Action of Ranitidine in Outpatient Laparoscopy Under Propofol–Isoflurane Anesthesia. A14
B. J. Kraynick and M. F. Bates
- The Reduction of Postsurgical Nausea and Vomiting in Patients Receiving N₂O. A15
J. J. Sacco, W. D. Grant, D. D. Luthringer, A. London, and C. A. Kamps
- Autonomic Neuropathy and Gastric Volume in the Anesthetized Patient. A16
F. Cejudo, A. Kawas, and A. H. Giesecke
- Menstruation Increases Risk of Postoperative Emesis. A17
T. Lindblad, W. S. Beattie, D. N. Buckley, and J. B. Forrest
- Ondansetron Is an Effective New Antiemetic After Outpatient Anesthesia. A18
S. M. Poler, M. Bodner, and P. F. White
- Does Gastric Suction Enhance the Efficacy of Droperidol Prophylaxis of Postoperative Nausea and Vomiting? A19
H. J. Heyman, M. R. Salem, and N. J. Joseph
- Vital Capacity Rapid Inhalation Induction (VCRII) with Desflurane. A20
G. S. Hartman, R. E. Kelly, P. B. Embree, and J. F. Artusio, Jr.
- Choice of Induction Agent Affects Discharge Time Following Ambulatory Surgery in Children. A21
R. I. Patel and R. S. Hannallah
- Propofol Allows Intubation Without Relaxants. A22
S. K. Kallar
- A Prospective Evaluation of Epidural Versus General Anesthesia for Outpatient Arthroscopy. A23
S. M. Parnass, R. J. McCarthy, B. Bach, M. Werling, and S. Hasson
- Effects of Clonidine Premedication for Monitored Anesthesia. A24
K. M. Northfield and S. W. Stead

POSTER I—AMBULATORY ANESTHESIA

Propofol Anesthesia <i>Versus</i> Paracervical Blockade for Outpatient Legal Abortion.	A25
<i>J. C. Raeder</i>	
Outpatient Brachial Plexus Anesthesia.	A26
<i>W. J. Davis, R. L. Lennon, and D. J. Wedel</i>	
Complaints of Sexual Fantasies Following Benzodiazepine Sedation in Women.	A27
<i>J. W. Dundee</i>	
Conscious Sedation <i>Versus</i> Epidural Anesthesia for Lithotripsy on the HM4 Dornier Lithotripter.	A28
<i>P. C. Reynolds, T. Gormley, D. Cowan, and C. Brown</i>	
The Effect of Liquid H ₂ Antagonists on Gastric Volume and pH.	A29
<i>F. D. Hass, C. S. Pablo, J. E. Brian, Jr., and K. Olsen</i>	
Evaluation of Outpatients Receiving Propofol or Other Anesthetic Agents for Extracorporeal Shock Wave Lithotripsy (ESWL): A Quality Assurance Analysis.	A30
<i>J. S. Jahr, M. S. Texidor, K. Kuchta, and D. Kelley</i>	
Comparison of Propofol and Midazolam–Propofol for Outpatient Anesthesia: Recovery Characteristics.	A31
<i>X. Petit, P. Narchi, F. Legendre, and D. Benhamou</i>	
Propofol <i>Versus</i> Benzodiazepines for Sedation During Endoscopy.	A32
<i>E. Pizzirani, S. Pucciarelli, P. Pigato, G. Rizzoli, and A. Marcassa</i>	
Randomized, Double-Blind Comparison of Ondansetron and Placebo in the Treatment of Postoperative Nausea and Vomiting.	A33
<i>G. E. Larijani, I. Gratz, A. G. Jacobi, M. Afshar, S. S. Minassian, H. A. Zaren, N. G. deCastro, B. N. Karayannis, A. F. Joslyn, and K. J. Simansky</i>	
Droperidol Dose–Response in Outpatients Following Alfentanil–N ₂ O Anesthesia.	A34
<i>M. L. Mingus, K. Zahl, C. Bradford, L. Kroening, and J. B. Eisenkraft</i>	
Anesthetic Outcome After Outpatient Laparoscopy: Enflurane <i>Versus</i> Isoflurane with Fentanyl and Droperidol.	A35
<i>L. Levy, S. K. Pandit, G. I. Randel, M. H. Lebenbom-Mansour, and S. P. Kothary</i>	
Ondansetron Decreases Emetic Symptoms Following Outpatient Laparoscopy.	A36
<i>B. V. Wetchler, Y. F. Sung, D. Duncalf, and A. F. Joslyn</i>	
Use of Hudson's Mask for Short Ophthalmological Procedures in Children Results in Low Complication Rate.	A37
<i>D. Susman and N. Shah</i>	

Metoclopramide May Cause Dysphoria. <i>B. F. Horton and D. Chadwick</i>	A38
Butorphanol Versus Fentanyl and Fentanyl + Midazolam for Ambulatory Patients Having Regional Anesthesia: A Double-Blinded Randomized Study. <i>B. Philip, P. Muschlin, A. Cnaan, M. Bizzarri-Schmid, M. Courtney, and D. Dedrick</i>	A39
Lower Esophageal Contractility Monitoring Prolongs Recovery After Outpatient Anesthesia. <i>K. Zahl, A. D. Shapiro, I. H. Sampsom, M. Mingus, K. Prasad, and G. Silvay</i>	A40
Thiamylal Requirements for Induction of Anesthesia in Unpremedicated Adolescents. <i>I. T. Cohen, R. Hannallah, and P. Ahlstrom</i>	A41
Ranitidine Reduces Nausea and Vomiting After Thiopental-Isoflurane Anesthesia. <i>B. J. Kraynick and M. F. Bates</i>	A42
Brachial Plexus Blockade Versus General Anesthesia for Orthopedic Operation on the Upper Extremity in Outpatients. <i>C. L. Baysinger, E. A. Bowe, L. S. Bowe, and L. A. Sykes</i>	A43
Regional Versus General Anesthesia in Outpatients. <i>E. A. Bowe, C. L. Baysinger, L. A. Sykes, and L. S. Bowe</i>	A44
Subarachnoid Blockade Versus General Anesthesia for Knee Arthroscopy in Outpatients. <i>E. A. Bowe, C. L. Baysinger, L. A. Sykes, and L. S. Bowe</i>	A45
Chewing Gum Preoperatively May Warrant Delaying Induction of Anesthesia. <i>S. A. Dubin, H. G. Jense, and J. Moore</i>	A46
The Effects of Famotidine on Gastric Acidity and Volume in Ambulatory Surgery Patients. <i>Y. J. Kao, L. P. Schaub, and J. M. Tellez</i>	A47
Back Pain Following Chloroprocaine Epidural Anesthesia. <i>J. M. Hynson, D. I. Sessler, B. Glosten, and J. McGuire</i>	A48
Effect of Preinduction Alfentanil on Blood Pressure and Heart Rate on Laryngoscopy. <i>M. M. Joseph and K. Assil</i>	A49
Comparison of Alfentanil and Isoflurane Anesthesia on Pressor and Catecholamine Responses During Outpatient Laparoscopic Surgery. <i>J. Ramanathan, K. Nocollerat, R. Birch, P. Coleman, and M. Heerdt</i>	A50

Induction of Anesthesia with Desflurane: A Comparison of Conventional (C) and Vital Capacity Rapid Inhalation Induction (VCRII) Techniques.	A51
<i>R. E. Kelly, G. S. Hartman, P. B. Embree, and J. F. Artusio, Jr.</i>	
General Versus Regional Anesthesia for Inguinal Herniorrhaphy.	A52
<i>R. Behnia, S. M. Poticha, F. Hashemi, and G. T. Ujicki</i>	
Flumazenil After Sufentanil-Midazolam Anesthesia.	A53
<i>J. Isner, R. C. Cork, and P. Scipione</i>	
An Adaptable Computer Model of the Economic Effects of Alternative Anesthetic Regimens in Outpatient Surgery.	A54
<i>M. L. Marais, M. W. Maher, B. V. Wetchler, and Y. Sung</i>	
CLINICAL CIRCULATION I	
Norepinephrine Plasma Concentrations and Cardiovascular Effects.	A55
<i>H. Ensinger, S. Schulich, H. Heinrich, A. Grünert, and F. W. Ahnefeld</i>	
Hemodynamic Response to Induction of Intravenous Anesthesia Supplemented with Pentamorphone or Fentanyl.	A56
<i>D. Varlotta and R. Robertson</i>	
Plasma Catecholamine and Dopamine Concentrations During Coarctation Repair: Isoflurane Versus Neuroleptoanesthesia.	A57
<i>H. J. Schmitt, R. J. Knoll, and U. G. Danner</i>	
Efficacy of Sufentanil IV Infusion After Coronary Artery Surgery.	A58
<i>W. J. Durkan, J. E. Tobiason, and K. Diveley</i>	
Effect of Prostaglandin E ₁ (PGE ₁) on Skin Blood Flow and Thermoregulation During Enflurane Anesthesia.	A59
<i>M. Takashina, T. Kamada, S. Sasaki, T. Mashimo, and I. Yoshiya</i>	
Do Radial Artery Pressure Waveforms Reflect Myocardial Performance?	A60
<i>A. L. Pauca, S. L. Wallen Haupt, and N. D. Kon</i>	
Is Dobutamine Less Chronotropic than Epinephrine After Coronary Bypass Surgery?	A61
<i>J. F. Butterworth, R. C. Priellipp, G. P. Zaloga, R. L. Royster, and P. G. Robertie</i>	
Cardiac Output Determination: Transesophageal Echocardiography Versus Thermodilution.	A62
<i>C. A. Troianos, J. S. Savino, and R. L. Weiss</i>	

CLINICAL CIRCULATION II

- Tranexamic Acid, Not Desmopressin or Both, Decreases Bleeding After Open Heart Surgery. A63
J. C. Horrow, D. F. Van Riper, J. Parmet, M. D. Strong, I. Brodsky, and D. Osborne
- Improved Neurologic Outcome Using Naloxone and Spinal Fluid Drainage in Surgery of the Thoracoabdominal Aorta. A64
M. M. Wynn and C. W. Archer
- The Effects of Ketamine and Thiopental on Myocardial Contractility and Function in Hypovolemic Swine. A65
S. M. Silverman, J. A. Ward, C. P. Kingsley, D. Williams, and J. M. Farooqui
- Effects of Dobutamine on Hepatic Blood Flow and Oxygen Balance During Anesthesia of Liver Surgery A66
M. Kainuma, T. Nonami, N. Kimura, K. Nakashima, and Y. Shimada
- Perioperative Myocardial Ischemia Is Associated with Elevated Left Ventricular Wall Mass. A67
J. R. Busse and J. E. Ellis
- Outcome Analysis of Hypotensive Anesthesia in Hypertensive Patients. A68
N. E. Sharrock, and B. Urquhart
- Does Postoperative Epidural Analgesia Reduce Deep Vein Thrombosis? A69
N. E. Sharrock, M. J. Hargett, B. Urquhart, J. N. Insall, and C. Ranawat
- Epinephrine Versus Phenylephrine: Effects on Renal Autoregulation During Epidural Hypotensive Anesthesia. A70
V. M. Zayas, N. E. Sharrock, J. Blumenfeld, M. McDonald, and J. Sealey
- Reduction of Significant Cardiac Morbidity by Epidural Morphine in Noncardiac Surgery. A71
W. S. Beattie, D. N. Buckley, and J. B. Forrest
- Cerebral Autoregulation During Cardiopulmonary Bypass Is Temperature-Dependent in Infants. A72
R. Taylor, F. Burrows, and B. Bissonnette
- Hemodynamic and Ventilatory Effects of Urapidil and Nitroglycerine Following Coronary Artery Bypass Grafting. A73
T. Mollhoff, P. Rosiers, and H. Van Aken
- Platelet Receptors for Adhesive Ligands Are Decreased During Cardiopulmonary Bypass. A74
C. Rinder, H. Rinder, K. Ault, and B. Smith

CLINICAL CIRCULATION III

- The Limited Predictive Value of Dipyridamole Thallium Imaging in Noncardiac Surgery Patients. A75
L. A. Fleisher, A. D. Hawes, and S. H. Rosenbaum
- The Predictive Value of Preoperative Silent Ischemia for Postoperative Ischemic Cardiac Events in Vascular and Nonvascular Surgery Patients. A76
L. A. Fleisher, S. H. Rosenbaum, A. D. Hawes, and P. G. Barash
- Effects of Isoflurane on Hemodynamic Changes Following Infrarenal Aortic Cross Clamping. A77
E. Menguy and C. Winckler
- Gross Neurologic Outcome in CABG Patients Managed with Single or Multiple Aortic Crossclamp: A Preliminary Retrospective Analysis. A78
M. S. Scheller, J. C. Glina, and W. L. Massei
- Postoperative Myocardial Ischemia in Patients Undergoing Coronary Artery Bypass Graft Surgery. A79
R. C. Smith, J. M. Leung, and D. T. Mangano
- Independent Simultaneous Measurement of Oxygen Consumption and Delivery During Normovolemic Hemodilution. A80
M.-J. Ciofalo, J.-F. Baron, M. Arthaud, and P. Viars
- Cardiac Output Fails to Increase with Pacing in Cardiac Surgical Patients. A81
W. E. Johnston, P. G. Robertie, L. M. Dudas, N. G. Kon, and J. Vinten-Johansen
- Ephedrine Versus Phenylephrine for Hypotension Due to Thoracic Epidural Anesthesia Associated with General Anesthesia: Effects on Left Ventricular Function. A82
E. Samain, P. Coriat, F. LeBret, J. F. Baron, J. Vrints, and P. Viars
- Thromboelastographic Evaluation of the Effect of Cell Saver Blood on Coagulation in the Post-Cardiopulmonary Bypass Patient. A83
J. Weiss, S. McNulty, and T. Schmitz
- Left Ventricular Function in Brain-Dead Donors: Assessment Using Transesophageal Echocardiography (TEE). A84
J. P. Goarin, S. Cohen, Y. Jacquens, F. LeBret, F. Clergue, and P. Viars
- Clinical Use of the PA Watch Catheter. A85
P. G. Robertie, W. E. Johnston, M. L. Williamson, S. L. Wallen Haupt, and W. Ganz
- Dipyridamole Thallium Scan Is Not Accurate in Detecting Coronary Stenosis in Patients Undergoing Abdominal Aortic Surgery. A86
M. Bertrand, P. Coriat, J. F. Baron, E. Barre, D. Thomas, and P. Viars

CLINICAL CIRCULATION IV

Isoflurane-Induced Vasodilation Minimally Increases Cutaneous Heat Loss. <i>D. I. Sessler, J. McGuire, A. Moayeri, and B. A. Hynson</i>	A87
Urapidil for the Treatment of Sternotomy Induced Hypertension. <i>J. Marty, Y. Pansard, and J. P. Lancon</i>	A88
Effect of Two Inhalation Anesthetics on Hemodynamics, Coronary Flow, and Myocardial Metabolism in Patients with Left Main Coronary Lesion. <i>G. V. Kirvassilis, D. D. Pulley, K. Kater, R. Genton, N. Kelermenos, and D. L. Lappas</i>	A89
Bilateral Single Lung Transplantation: Anesthetic Management and Intraoperative Considerations. <i>A. N. Triantafillou, P. M. Heerdt, T. J. Herbst, C. Pond, and G. J. Despotis</i>	A90
Cardiopulmonary Bypass and Total Circulatory Arrest Alters Cerebral Metabolism in Infants and Children. <i>W. J. Greeley, F. H. Kern, R. M. Ungerleider, T. J. Quill, B. Baldwin, and J. G. Reves</i>	A91
The Prophylactic Effect of Intravenous Enalaprilat on Intraoperative Hypertension. <i>M. Heropoulos, H. Schieren, J. Seltzer, R. Bartkowski, J. Lessin, M. Torzman, and M. Goldberg</i>	A92
Effect of Cerebral Perfusion Pressure During Cardiopulmonary Bypass on Neuropsychiatric Outcome Following Coronary Artery Bypass Grafting. <i>T. E. Stanley III, L. R. Smith, W. D. White, L. Morrison, J. Blumenthal, E. J. Burker, S. Schniebold, M. Newman, N. Croughwell, and J. G. Reves</i>	A93
Esmolol and Controlled Hypotension: Adverse Effects on Oxygen Extraction. <i>T. J. Quinn, V. M. Zayas, K. LeDonne, M. McDonald, and T. Pickering</i>	A94
Nicardipine But Not Enalapril Prevents Renal Hemodynamic Alteration During Infrarenal Aortic Cross-Clamping. <i>P. Colson, J. Ph. Gouin, Ch. Marty-Ane, H. Mary, and B. Roquefeuil</i>	A95
Bolus Doses of Esmolol for the Prevention of Perioperative Hypertension and Tachycardia in Cardiovascular Surgery Patients. <i>P. C. Duke, P. Goertzen, B. Muirhead, R. Greengrass, and D. Paethau</i>	A96
Right Ventricular Function During Orthotopic Liver Transplantation. <i>A. De Wolf, T. Gasior, B. Begliomini, Y. Kang, and M. Pinsky</i>	A97
The Effects of Oral Clonidine as the Sole Premedication on the Hemodynamic and Catecholamine Responses to Both Brief and Prolonged Laryngoscopy. <i>C. E. Laurito, V. L. Baughman, G. L. Becker, B. Pygon, F. Cunningham, and G. M. Citron</i>	A98

CLINICAL CIRCULATION V

Does the Choice of Anesthetic Have an Effect on Myocardial Ischemia During Anesthetic Induction and Intubation?	A99
<i>J. M. Leung, L. Levenson, and M. Hollenberg</i>	
The Effects of Anesthetics and Steal-Prone Anatomy on Myocardial Ischemia.	A100
<i>J. M. Leung, B. F. O'Kelly, and D. T. Mangano</i>	
Blood Flow Is Inversely Related to Pulmonary Vascular Resistance in Patients with a Left Ventricular Assist Device	A101
<i>L. C. Siegel, N. Ramasamy, P. E. Oyer, B. A. Greene, and P. Portner</i>	
Predeposited Autologous Blood Use Reduces Frequency of Homologous Blood Transfusion Without Hemodynamic Compromise in Cardiac Surgery Patients.	A102
<i>J. Samuel, V. Geary, P. Moberg, D. Sheikh, and P. Lumb</i>	
Intraoperative Echocardiography in Children with Congenital Cardiac Shunt Lesions: Comparison of Transesophageal and Epicardial Echocardiography.	A103
<i>I. A. Muhiudeen, D. A. Roberson, N. H. Silverman, K. Turley, G. S. Haas, K. Corver, and M. K. Cahalan</i>	
Intraoperative Echocardiography in Infants and Children with Regurgitant Valvar Lesions: Comparison of TEE and Epicardial Echocardiography.	A104
<i>I. A. Muhiudeen, D. A. Roberson, N. H. Silverman, K. Turley, G. S. Haas, K. Corver, and M. K. Cahalan</i>	
Right and Left Arm Blood Pressure Discrepancies in Vascular Surgery Patients.	A105
<i>S. M. Frank, E. Norris, H. Crowley, R. Christopherson, and C. Beattie</i>	
Effect of Elective Cardiopulmonary Bypass (CPB) Surgery and Hemodilution on Serum Erythropoietin Levels and Erythropoiesis.	A106
<i>M. N. D'Ambra, C. Risk, R. C. Schneider, G. Vlahakes, and K. Lynch</i>	
Determinants of Ventricular Performance During Induction of Anesthesia on Heart Transplant Recipients.	A107
<i>N. D. Dikel, T. J. Gruber, J. E. Watkins, and J. A. Estrin</i>	
Comparison of the Ability of Esmolol and Alfentanil to Attenuate Tachycardia and Hypertension During Emergence from Inhalational Anesthesia.	A108
<i>C. L. Ewell, T. M. Fuhrman, W. D. Pippin, and J. M. Weaver</i>	
An Evaluation of the Hemodynamic Effects of Bone Marrow Harvest Under General Anesthesia.	A109
<i>R. Kettler, A. Aggarwal, N. Bratanow, M. S. Dhamee, T. J. Ebert, J. Entress, and L. Krebs</i>	

**Hemodynamic Changes in Patients Undergoing Total Hip Arthroplasty: Cemented
Versus Noncemented.**

A110

M. H. Eret, R. L. Lennon, S. H. Rose, and D. G. Lewallen

CLINICAL CIRCULATION VI

Predictors of Difficult Radial Artery Cannulation.

A111

H. Bennett, P. Lichtenthal, and C. Shanks

Protamine Induces Adverse Metabolic Effects.

A112

C. B. Hantler, T. W. Wakefield, S. K. Wroblski, B. A. Crider, and J. C. Stanley

Persistence of Neuropsychological Deficits Following CABG.

A113

D. A. Stump, S. P. Newman, L. H. Coker, J. M. Phipps, and C. C. Miller

Heparin Management Protocol for Cardiopulmonary Bypass (CPB) Does Not Influence Postoperative Bleeding.

A114

G. P. Gravlee, A. T. Rogers, L. M. Dudas, C. L. Whitaker, and L. D. Case

Decrements in Cognitive Function Following Coronary Artery Surgery: A Prospective Study.

A115

J. M. Murkin, J. S. Martzke, D. A. Sim, A. M. Buchan, and D. S. Sharma

Transesophageal Doppler Mitral Flow Indices and Ventricular Relaxation.

A116

Z. Hillel and D. Thys

pH Management During Hypothermic Cardiopulmonary Bypass Does Not Influence Cerebral Oxygen Consumption.

A117

J. M. Murkin, M. Sharpe, and J. K. Farrar

Phospholipase A₂ Activity and Prostaglandin Levels During Cardiac Surgery.

A118

H. Nakamura, D. Philbin, M. Peterson, F. deBros, and J. V. Bonentre

A Comparison of the Cold Pressor Stress Test with a Computerized 22 Site ECG/ST Mapping System and Dipyridamole Stress Thallium Scanning for Determining Significant Coronary Artery Disease.

A119

R. D. Seegobin, T. H. Wilmshurst, T. Morrels, and F. Cleloe

Hemodynamic Effects of the PDE Inhibitor Piroximone to Assist in Weaning from CPB.

A120

T. J. Tarr, R. S. Frazer, N. A. Moore, and M. J. Desmond

A Comparison of the PDE Inhibitor Enoximone with Dobutamine Following Mitral Valve Replacement.

A121

T. J. Tarr, R. S. Frazer, N. A. Moore, and M. J. Desmond

Hemodynamic Effects of Intravenous Dilevalol in Patients with Coronary Artery Disease.

A122

R. Demeyere, W. Flameng, and T. B. Tjandra Maga

CLINICAL CIRCULATION VII

Lidocaine Alters Flow-Mediated Changes in Large Arteries in Humans.

A123

J. Duranteau, A. Edouard, P. Demoulis, E. Prussard, and A. Berdeaux

Factors Influencing Cerebral Blood Flow Velocity During Cardiopulmonary Bypass.

A124

D. Renz, G. Karliczek, E. Beyer, and M. Jepsen

Effects of Urapidil on Right Ventricular (RV) Function.

A125

J. Y. Lepage, M. Pinaud, C. De Dieuleveult, J. M. Malinovsky, and R. Souron

Influence of Isoflurane Versus Methohexitone on Cerebral Blood Flow Velocity Autoregulation During Cardiopulmonary Bypass.

A126

D. Renz, G. Karliczek, B. Kraus, and A. Höche

Low-Dose Thoracic Epidural Anesthesia (TEA) Induces Discrete Thoracic Analgesia Without Reduction in Cardiac Output (CO).

A127

K. Tanaka and T. Harada

Shed Mediastinal Blood and 2,3-Diphosphoglycerate After Cardiac Surgery.

A128

C. Isetta, C. Samat, M. F. Masseyeff, K. Otaiche, and M. J. Jourdan

Clonidine Decreases Ischemic Events During Coronary Artery Surgery.

A129

M. Kent, B. Thomsen, and R. Cicala

Role of Benzyl Alcohol Preservative in Heparin-Induced Hypotension Prior to Cardiopulmonary Bypass.

A130

J. F. Kelleher, R. C. Smith, R. L. Hull, R. W. Blomberg, and R. H. Ruff

LV Systolic Thickening Velocity, Not Fraction Is an Index of Myocardial Function.

A131

P. Dupuy, A. Boisson, P. Schurando, O. Tibourtine, and D. Payen

The Combination of Thoracic Epidural and Light General Anesthesia Does Not Induce Myocardial Segmental Wall Motion Abnormalities.

A132

M. Saada, P. Catoire, L. Delaunay, P. Brun, and F. Bonnet

Hemodynamic Effects of Variable Dose IV Milrinone Following Cardiac Surgery.

A133

European Multicenter Milrinone Trial Group

Effect of Flumazenil on Anesthesia Induced by Flunitrazepam, Ketamine, Etomidate or Thiopental.

A134

M. S. Mok, S. N. Steen, T. T. Wei, and C. R. Cheng

POSTER VII—CLINICAL CIRCULATION

Perioperative Changes in the QT Interval in Response to Anesthetics and Plasma Catecholamines.

D. Amar, E. J. Lazar, J. Gross, H. Shamoon, and W. H. Frishman

A135

Right Ventricular End-Systolic Pressure Volume Relationship (ESPVR) During Norepinephrine (NE) Infusion in Septic Shock Patients.

C. Martin, P. Saux, B. Eon, J. P. Auffray, and F. Gouin

A136

The Systolic Pressure Variation May Unmask Acute Left Ventricular Ischemic Dysfunction upon Weaning from Cardiopulmonary Bypass.

A. Perel, V. Koman, D. Geva, and V. Smolinsky

A137

Transesophageal Atrial Pacing for Intraoperative Bradycardia: Pacing Thresholds and Modified Esophageal Stethoscope in Adults.

C. Z. Pattison, E. L. Mathews, J. J. Entress, and J. L. Altee

A138

Effect of Spinal Anesthesia in Geriatric Patients with Heart Disease: Hemodynamic and Blood Volume Profile.

G. A. Rooke, P. R. Freund, A. F. Jacobson, and M. D. Cerqueira

A139

Effect of Spinal Anesthesia in Geriatric Patients with Heart Disease: Choice of Vasopressor Therapy to Reverse Hemodynamic Changes.

G. A. Rooke, P. R. Freund, A. F. Jacobson, and M. D. Cerqueira

A140

Effects of Combined Treatment with Norepinephrine and Dopexamine in Human Septic Shock.

F. Slomka, S. Nouira, J. F. Vaxelaire, F. Brunet, and J. F. Dhainaut

A141

Isradipine for Treatment of Hypertension During Abdominal Surgery.

B. Dartayet, A. Edouard, and K. Samii

A142

Esmolol Versus Nitroprusside for Hypotension: Dose Response During Isoflurane Anesthesia.

O. DelValle, R. Edmondson, R. Reinsel, N. Shah, H. Herr, and R. Bedford

A143

Effect of Nitroglycerin Infusion on Effective Pulmonary Capillary Pressure in the Postoperative Period of Major Vascular Surgery.

P. Amardeil, J. M. Fargnoli, J. C. Peyrin, P. Girardet, and F. Grimbert

A144

The Effects of Hypocapnic Alkalosis (HA) on the Vasodilating Action of Nicardipine (N).

P. Combes, B. Fauvage, M. Hubert, M. Guerret, and P. Girardet

A145

Routine Application of High-Dose Aprotinin in Open-Heart Surgery: A Study on 1,784 Patients.

W. Dietrich, Ch. Hänel, and J. A. Richter

A146

Coronary Bypass Graft Flow (CBGF) Vasodilation (VD) Induced by Isoflurane Has Only Negligible Effects on Left Ventricular (LV) Systolic Function.	A147
<i>D. Leclerc, M. D. Fratacci, P. Dupuy, and D. Payen</i>	
Priming Dose of Pancuronium Does Not Attenuate Chest Wall Rigidity from Sufentanil.	A148
<i>J. T. Abrams, J. Horrow, R. J. Storella, D. F. Van Riper, D. L. Lambson, and J. Rawa</i>	
Interatrial Septal Responses to Transatrial Pressure Gradients and Their Potential for Predicting Pulmonary Capillary Wedge Pressure.	A149
<i>F. M. Kusumoto, I. A. Muhiudeen, M. K. Cahalan, and N. B. Schiller</i>	
The Hemodynamic Response to Desmopressin in the Early Postcardiopulmonary Bypass Period.	A150
<i>J. Weiss-Bloom, D. L. Reich, B. C. Hamerschlag, H. Perucho, and D. M. Thys</i>

Determination of Hyper- and Hypometabolism in the Postoperative ICU Patient.	A306
<i>C. Weissman and M. Kemper</i>	
Use of Topical Nitroglycerin in the Treatment of Purpura Fulminans.	A307
<i>J. Irazuzta and M. L. McManus</i>	

PEEP Valves May Doom Pressure Control Inverse-Ratio Ventilation. <i>T. D. East, S. H. Böhm, L. Peng, B. H. Hoffmann, and A. H. Morris</i>	A308
The Stress of Spontaneous Breathing in Children Recovering from Open Heart Surgery. <i>J. Räsänen and K. Puhakka</i>	A309
Thyroid Function on ECMO. <i>D. Schwartz and J. Fackler</i>	A310
Neuropeptides: Plasma Levels in Endotoxic Shock. <i>E. Werner, M. J. Murray, J. J. Lunn, S. L. Stoddard, V. L. W. Go, and D. K. Rorie</i>	A311
Oxygenation of the Porcine Gut Is Reduced by Halothane but Is Maintained by Ketamine. <i>R. Tokyay, H. M. Loick, J. C. Stothert, Jr., D. L. Traber, and D. N. Herndon</i>	A312
Dobutamine and Norepinephrine Treatment in Relation to Oxygen Delivery and Consumption in Endotoxin Shock. <i>J. Bakker and J.-L. Vincent</i>	A313
Risk Factors for Multisystem Organ Failure After Cardiac Surgery. <i>K. Tuman, R. McCarthy, E. Corey, and A. Ivankovich</i>	A314
DRUG DISPOSITION AND ANESTHETIC ACTION I	
Influence of the Calcium Antagonist Bay K 8644 on Mechanical Responses of Skeletal Muscle from Nonsusceptible Patients and Patients Susceptible to Malignant Hyperthermia. <i>P. J. Adnet, R. M. Krivosic-Horber, M. M. Adamantidis, G. Haudecoeur, and G. H. Reyfort</i>	A315
Intravenous Clonidine Does Not Promote Hypoxemia and Platelet Aggregation in Man. <i>M. D. DeKock, F. J. Singelyn, and J. M. Gouverneur</i>	A316
Effect of Clonidine on Postoperative Oxygen Consumption in Humans: A Double-Blind Study. <i>G. Goldfarb, E. T. Ang, B. Debaene, S. Chhim, and P. Jolis</i>	A317
Comparison of Intraoperative Course and Recovery Following Anesthesia with Etomidate or Propofol in Patients Over 80 Years. <i>F. Servin, R. Pommereau, C. Rowan, M. Nimier, and J. M. Desmonts</i>	A318
Pulmonary Retention of Sufentanil in the Lungs. <i>F. Boer, A. G. L. Burm, J. G. Bovill, and R. A. G. Mooren</i>	A319

Esmolol/N ₂ O/Relaxant: A New Effective Anesthetic Maintenance Technique. <i>D. Geva, D. Sagi, and A. Perel</i>	A320
A Comparison of Desflurane and Isoflurane for Coronary Surgery. <i>J. B. Bowering, I. R. Thomson, R. J. Hudson, D. Peters, and M. Rosenbloom</i>	A321
Effect of N ₂ O on Vitamin B ₁₂ and Folate Metabolism in Patients. <i>D. D. Koblin, B. W. Tomerson, F. M. Waldman, and G. H. Lampe</i>	A322
Serum Concentrations of Midazolam and the Anesthetic Efficacy. <i>Y. Inagaki, K. Sumikawa, K. Fukumitsu, K. Yoshikawa, and I. Yoshiya</i>	A323
Hemodynamic Stability and Thiopental, Ketamine, Thiopental/Fentanyl and Ketamine/Fentanyl Anesthetic Induction. <i>R. I. Katz and G. Alexander</i>	A324
Comparison of Midazolam and Propofol in Combination with Alfentanil for Total Intravenous Anesthesia. <i>J. Vuyk, P. J. Hennis, A. G. L. Burm, J. W. H. de Voogt, and J. Spierdijk</i>	A325
The Influence of Rectal Cisapride on Morphine Induced Gastric Stasis. <i>M. T. Kluger, H. Owen, and J. L. Plummer</i>	A326

DRUG DISPOSITION AND ANESTHETIC ACTION II

Desflurane Versus Isoflurane: Intubating Conditions and Related Hemodynamic Response. <i>S. S. Azad, R. Barikowski, T. Witkowski, A. Marr, J. Lessin, and J. Seltzer</i>	A327
Initial Evaluation of Ondansetron: A Novel Antiemetic. <i>M. Bodner, S. M. Poler, and P. F. White</i>	A328
Extrahepatic Propofol Metabolism: Evidence. <i>P. Veroli, B. O'Kelly, F. Bertrand, J. H. Trouvin, R. Farinotti, and C. Ecoffey</i>	A329
A Comparison of Nalmefene with Naloxone Against Fentanyl-Produced Antinociception in Rats. <i>M. H. Ossipov, S. Harris, E. Messineo, T. C. Spaulding, B. Levinson, T. P. Jerussi</i>	A330
Naloxonazine Blocks Alfentanil-Induced Analgesia but Not Muscle Rigidity in the Rat. <i>M. B. Weinger, J. B. Bronson, S. R. Furst, and G. Pasternak</i>	A331
Programmed Infusion of Alfentanil Based on Lean Body Mass. <i>D. P. Crankshaw, D. J. Morgan, G. H. Beemer, and F. Karasawa</i>	A332

Esmolol Reduces Halothane MAC in Rats.	A333
<i>B. L. Partridge and D. F. Kon</i>	
α_2 -Agonist, Dexmedetomidine, as Analgesic After Laparoscopic Tubal Ligation.	A334
<i>M. Aho, A-M. Lehtinen, O. Erkola, and K. Korttila</i>	
Pharmacokinetics of Long-Term Alfentanil Infusion (72 h) Used for Sedation in Patients in the ICU.	A335
<i>C. Martin, J. Albanese, M. Alazia, and J. C. Levron</i>	
Isoflurane Partially Protects Energy Balance in Isolated Hepatocytes During <i>In Vitro</i> Anoxia.	A336
<i>B. L. Pathak, G. L. Becker, P. J. Reilly, K. A. Hanson, and D. F. Landers</i>	
Epidural Morphine Reduces the MAC of Halothane in Humans.	A337
<i>I. Schwieger, C. Klopfenstein, and A. Forster</i>	
MAC-Awake of Isoflurane Evaluated by Slow and Fast Alveolar Washout.	A338
<i>J.-P. Mustaki, D. Gaumann, and E. Tassonyi</i>	

DRUG DISPOSITION AND ANESTHETIC ACTION III

Barbiturate Attenuation of Agonist Affinity in Cerebral Arteries Correlates with Lipid Solubility.	A339
<i>P. Germann, I. Laher, and J. Bevan</i>	
Halothane Alters the Virus-Specific Immune Response to Influenza Infection in Mice.	A340
<i>A. R. Tait, B. A. Davidson, K. J. Johnson, D. Remick, and P. R. Knight</i>	
Modulation of Intracellular Calcium Fluxes in Oxidant-Injured Endothelial Cells by Halothane and Isoflurane.	A341
<i>J. R. Shayevitz, J. Varani, and P. R. Knight</i>	
Etomidate Induction Maintains Sympathetic Outflow in Humans: Direct Observations from Sympathetic Recordings.	A342
<i>T. J. Ebert, D. D. Kanitz, R. J. Berens, and J. P. Kampine</i>	
Inhibition of Sympathetic Neural Outflow Contributes to the Hypotension During Propofol Induction in Humans.	A343
<i>R. J. Berens, T. J. Ebert, and J. P. Kampine</i>	
Halothane, Isoflurane, and Ca^{2+} Transients in Cultured Vascular Smooth Muscle Cells.	A344
<i>P. Iaizzo, J. C. Sill, R. Olsen, G. Powis, and R. A. Van Dyke</i>	

Effects of Enflurane on Retinal Blood Flow in Cats.	A345
<i>S. Roth and A. P. Crittenden</i>	
Desflurane MAC Is Decreased But Recovery Time Is Unaltered Following Premedication with Midazolam (0.05 mg/kg).	A346
<i>B. Glosten, E. A. M. Faure, J. L. Lichtor, J. L. Apfelbaum, M. F. Roizen, M. K. Robert, S. Bedwell, and L. Karl</i>	
Vasoactive Actions of Bupivacaine and 2-Chloroprocaine on Umbilical Vascular Smooth Muscle.	A347
<i>S. Halevy, E. Monuszko, K. J. Freese, H. J. Shih, N.S. Paikh, M. Liu-Barnett, and B. M. Altura</i>	
Trifluoroacetylated Proteins in Livers of Rats Treated with the Potential Chlorofluorocarbon Replacement (1,1,1-Trifluoro-2,2-Dichloroethane)(HFC-123).	A348
<i>J. L. Martin, J. W. Harris, M. W. Anders, and L. R. Pohl</i>	
Comparison of Analgesia After A-3665 and Alfentanil.	A349
<i>J. J. Cambareri, M. S. Afifi, B. F. Esposito, P. S. A. Glass, and E. M. Camporesi</i>	
Production and Detection of Volatile Anesthetic-Associated Neoantigens <i>In Vitro</i>.	A350
<i>A. P. Brown, K. L. Hastings, and A. J. Gandolfi</i>	
 POSTER VI—DRUG DISPOSITION AND ANESTHETIC ACTION	
Increased Muscle Tone from High Dose Alfentanil Is a Peripheral Effect.	A351
<i>K. C. Huang</i>	
Comparative Effects of Ryanodine–Halothane on the Resting Tension of Muscle in Normal Patients and Patients Susceptible to Malignant Hyperthermia.	A352
<i>P. J. Adnet, B. A. Britt, W. Frodis, and E. Scott</i>	
Comparative Effects of Halothane on Single Skinned Muscle Fibers from Normal Patients and Patients with Malignant Hyperthermia.	A353
<i>P. J. Adnet, B. A. Britt, E. Scott, and W. Frodis</i>	
Could the Teratogenicity of N₂O in Rats Be Due to its Sympathomimetic Action on the Embryo?	A354
<i>M. Fujinaga and J. M. Baden</i>	
Plasma Protein Binding Determines Partitioning of Lidocaine into Brain and CSF Following Intravenous Bolus Administration in Dogs.	A355

The Pharmacokinetics of Nalmefene, an Opioid Antagonist.	A356
<i>B. Levinson, R. Reynolds, J. Kisicki, and J. W. Lee</i>	

Does Aging Alter the Rate of Elimination of Isoflurane?	A357
<i>R. Dwyer, R. S. J. Clarke, and J. P. H. Fee</i>	
Aging Increases Sensitivity to Midazolam.	A358
<i>J. Marty, J. G. Reves, N. D. Croughwell, D. K. Goodman, W. D. White, L. R. Smith, and J. R. Jacobs</i>	
The Effect of Volatile Anesthetics on Albumin Synthesis and Secretion in the Guinea Pig Liver Slices.	A359
<i>H. N. Ghantous, J. Fernando, K. L. Hastings, A. J. Gandolfi, and K. Brendel</i>	
Effects of Halothane Reduction on the Regio-Specific Metabolism of R- and S-Warfarin in Hepatic Microsomes.	A360
<i>M. T. Baker, M. T. Vasquez, and C. K. Chiang</i>	
Renal Function Following Cyclosporine and Enflurane.	A361
<i>K. J. Fish, S. A. Rice, and K. L. Peterson</i>	
Analgesic Activity of Intravenous Adenosine: A Comparison of Potency with Morphine Sulfate.	A362
<i>R. Ginsburg, B. Fukunaga, S. Sasaki, Y. Kikuta, and A. F. Fukunaga</i>	
Phase II-III Clinical Trial with Desflurane (I-653) in ASA I Adult Patients.	A363
<i>C. Lee, W. F. Kwan, B. Chen, S. K. Tsai, L. Gyermek, E. Yang, M. Cheng, and E. Cantley</i>	
Uptake, Equilibration and Elimination of Desflurane (I-653) in Healthy Adult Patients in a Clinical Setting.	A364
<i>C. Lee, W. F. Kwan, B. Chen, S. K. Tsai, and E. Cantley</i>	
Toxicity Versus Protection by Halothane During Hypoxia: Relationship to Glutathione.	A365
<i>M. E. Johnson and R. A. Van Dyke</i>	
L-644,711 Increases Isoflurane MAC in Rats.	A366
<i>J. S. Matsumura and D. J. Cole</i>	
Oral Transmucosal Permeability of Fentanyl and Isoproterenol in a Dog Model: pH Dependence.	A367
<i>J. Zhang, C. D. Ebert, A. J. F. deBoer, S. Niu, and T. H. Stanley</i>	
Amnesia and Unconsciousness with Fentanyl Induced Rigidity in Human Volunteers: Incidence, Duration, and Associated Plasma Levels.	A368
<i>J. B. Streisand, M. A. Ashburn, P. L. Bailey, S. Tarver, and L. LeMaire</i>	
Oral Transmucosal Fentanyl Citrate: Oral Transmucosal Versus Gastrointestinal Absorption.	A369
<i>J. B. Streisand, S.D. Tarver, J. Varvel, M. Demmink, and B. I. Hauge</i>	

Halothane Depresses Gallopomil (D600) Binding to Bovine Heart Sarcolemma. <i>P. J. Hoehner, M. Quigg, and T. J. Blanck</i>	A370
Transdermal Scopolamine Does Not Decrease the Incidence of Nausea and Vomiting After Alfentanil Anesthesia. <i>V. Bosek</i>	A371
Effects of Lidocaine Analog QX-314 on Single Cardiac Sodium Channels. <i>K. Gingrich and D. Yue</i>	A372
Sufentanil Reduces All Components of Heart Rate Variability. <i>T. W. Latson, D. C. Martin, C. W. Whitten, K. W. Klein, and J. Elmore</i>	A373
A Change in the Effectiveness of Esmolol When Used in Repeated Doses in Electroconvulsive Therapy. <i>M. B. Howie, T. D. McSweeney, D. A. Zvara, J. A. Coffman, and H. A. Black</i>	A374
Effect of Order of Administration of Amrinone and Dobutamine on Guinea Pig Heart Muscle. <i>R. C. Cork, S. Behr, S. Mackey, and J. DiNardo</i>	A375
Do Exogenous Porphyrins Affect Anesthetic Management? <i>G. R. Manecke, B. Laster, R. G. Fairchild, and P. J. Poppers</i>	A376
A Pharmacokinetic Model Characterizing Antipyrine Disposition from the Moment of Its Administration. <i>C. A. Shanks, T. K. Henthorn, D. A. Kaczynski, A. Asada, T. C. Krejcie, and M. J. Avram</i>	A377
CP50 for Sufentanil. <i>P. S. A. Glass, M. A. Doherty, J. R. Jacobs, D. K. Goodman, and J. G. Reves</i>	A378
Inhibition of Human Liver Alfentanil Metabolism by Medetomidine Stereoisomers. <i>E. D. Kharasch, H. F. Hill, and A. C. Eddy</i>	A379
The Intravascular Disposition of Indocyanine Green (ICG) from the Moment of Its Administration. <i>T. C. Krejcie, T. K. Henthorn, C. A. Shanks, and A. Asada</i>	A380
Inotropic and Electrophysiological Effects of Propofol on Isolated Ventricular Myocardium. <i>N. Roewer, Th. Winguth, O. Proske, A. Dziadzka, and J. Schulte am Esch</i>	A381
Esmolol Attenuates the Increase in Intraocular Pressure During Laryngoscopy and Intubation. <i>S. Badrinath, B. Braverman, and A. D. Ivankovich</i>	A382

POSTER XVI—DRUG DISPOSITION AND ANESTHETIC ACTION

Preretinal Oxygen Tension During Enflurane Anesthesia in Cats. <i>S. Roth, K. A. Neeley, J. T. Ernest, T. K. Goldstick, and J. Moss</i>	A383
Age Does Not Change the Dynamics of Atracurium Reversal. <i>S. Muravchick</i>	A384
Nalmefene for Reversal of Respiratory Depression Secondary to Intrathecal Morphine. <i>J. D. Lowdon, L. Yeung, I. J. Isaacson, G. B. Bikhazi, and M. L. Grunow</i>	A385
Use of Dronabinol for Preanesthetic Medication. <i>E. Taylor, T. G. Monk, and P. F. White</i>	A386
Comparison of Two Sedative-Analgesic Techniques for Lithotripsy Under MAC. <i>T. G. Monk, B. Boure, and P. F. White</i>	A387
Midazolam Pharmacokinetics in Children After Intranasal Administration. <i>J. M. Malinovsky, Y. Le Normand, C. de Dieuleveult, J. Y. Lepage, and A. Cozian</i>	A388
Does Nitrous Oxide Affect Cerebral Blood Flow Velocity Under Neurolept Anesthesia in Children? <i>J. Leon and B. Bissonnette</i>	A389
Pharmacokinetics of Sufentanil and Fentanyl After a Long-Duration Infusion. <i>M. Cathelin, J. C. Levron, B. Maroudy, G. Andrieu, and P. Viars</i>	A390
Use of EEG as a Measure of Thiopental Anesthetic Depth. <i>O. R. Hung, J. R. Varvel, S. L. Shafer, and D. R. Stanski</i>	A391
Effect of Fentanyl and Nitrous Oxide on the Desflurane MAC. <i>A. F. Ghouri and P. F. White</i>	A392
Desflurane (1-653) and Isoflurane in Surgical Patients: Comparative Hemodynamics and Emergence. <i>M. F. Battito, R. Langner, and E. L. Bradley, Jr.</i>	A393
Isoflurane, Halothane, and Agonist-Induced Responses in Cultured Vascular Smooth Muscle Cells. <i>R. Nelson, J. C. Sill, C. Uhl, R. Van Dyke, and P. Iaizzo</i>	A394
Aging Increases Patient Sensitivity to the Hypnotic Effects of Midazolam. <i>J. Marty, D. K. Goodman, L. R. Smith, J. R. Jacobs, and J. G. Reves</i>	A395
Relationship Between Serum F ⁻ and Cytochrome P-450 After Sevoflurane Anesthesia in Ethanol-Treated Rats. <i>E. Masaki, T. Kondou, and K. Kobayashi</i>	A396

Effect of Midazolam and Flumazenil on the Activity of Cardiac Sympathetic Branch.	A397
<i>T. Kimura, A. Shitaokoshi, T. Komatsu, J. Takezawa, and Y. Shimada</i>	
Glutathione Depletion Exacerbates Halothane-Associated Hepatotoxicity in Guinea Pigs.	A398
<i>R. C. Lind and A. J. Gandolfi</i>	
Hyperbaric Nitrous Oxide Anesthesia in Rats for MAC Determination.	A399
<i>G. B. Russell and J. M. Graybeal</i>	
Intravenous ATP Attenuates Surgical Stress Responses and Reduces Inhalation Anesthetic Requirements in Humans.	A400
<i>A. F. Fukunaga, Y. Kaneko, T. Ichinohe, O. Igarashi, and T. Nakakuki</i>	
Effect of Intravenous ATP on Enflurane N₂O MAC in Spontaneously Breathing Rabbits: Assessment of Cardiorespiratory Effects.	A401
<i>Y. Kikuta, A. F. Fukunaga, R. Ginsburg, B. Fukunaga, and K. Okada</i>	
Effect of Anesthetics Injected into the Vertebral Artery Before and After Hemorrhage and Pericardial Tamponade.	A402
<i>J.-C. Liao</i>	
Superoxide Production by Simulated Endothelial Cells Exposed to Varying Halothane Concentrations.	A403
<i>S. H. Noorily, J. R. Shayevitz, and J. Varani</i>	
Effects of Halothane on Phospholipid N-Methylation in Rat Brain Synaptosomes.	A404
<i>J. J. Franks, B. V. R. Sastry, J. R. Kambam, M. J. Surber, and R. England</i>	
Increased Phospholipid N-Methylation in the Rat Brain Myelin Membranes During Anesthesia with Halothane.	A405
<i>J. J. Franks, B. V. R. Sastry, J. R. Kambam, M. J. Surber, and R. England</i>	
Rapid Development of Tolerance During Fentanyl Infusion.	A406
<i>J. H. Arnold and R. D. Truog</i>	
Does R015-4513 Act Specifically, or Functionally, to Increase the Anesthetic Requirement?	A407
<i>B. Pearce-Smith, P. M. Winter, and L. L. Firestone</i>	
Isoflurane Impairs the Pupillary Light Reflex in Humans.	A408
<i>M. Larson and D. I. Sessler</i>	
Sevoflurane Reduces Whole Body Oxygen Consumption More than Isoflurane in Pigs.	A409
<i>J. A. DiNardo, R. C. Cork, K. B. Kern, and R. W. Hilwig</i>	

Compared to Enflurane, Isoflurane Produces Less Depression of the Stroke Volume and Autonomic Response of Canines Given Phenylephrine.	A410
<i>W. D. Hoffman, L. A. Koev, M. A. Solomon, S. M. Banks, I. Yatsiv, D. Dolan, S. L. Clements, and V. Natanson</i>	
Sedative and Hemodynamic Effects of Dexmedetomidine in Humans.	A411
<i>B. C. Bloor, D. S. Ward, J. P. Belleville, and M. Maze</i>	
EQUIPMENT, MONITORING, AND ENGINEERING TECHNOLOGY I	
Use of Colorimetric End-Tidal Carbon Dioxide Monitoring to Prognosticate Immediate Resuscitation from Cardiac Arrest.	A412
<i>A. J. Varon, J. Morrina, and J. M. Civetta</i>	
Clinical Utility of a Colorimetric End-Tidal Carbon Dioxide Detector in Emergency Intubation.	A413
<i>A. J. Varon, J. Morrina, and J. M. Civetta</i>	
Computer-Controlled Infusion of Atracurium.	A414
<i>D. O'Hara, G. Derbyshire, F. Overdyk, D. Bogen, and B. Marshall</i>	
Reliability of a New Generation Transesophageal Doppler Device for Cardiac Output Monitoring.	A415
<i>E. R. Schmid, D. R. Spahn, and M. Tornic</i>	
Comparison of Vigilance Using Automated Versus Hand Written Records.	A416
<i>D. O. Yablok</i>	
Evaluation of the Esophageal Detector Device.	A417
<i>R. E. Kolesar, C. Ananthanarayan, and D. Kapala</i>	
Estimation of Ischemic Territory by Continuous Vectorcardiography in a Closed Chest Myocardial Infarction Model.	A418
<i>S. Reiz, U. Näslund, S. Häggmark, and G. Johansson</i>	
Does Liquid Crystalline Temperature Monitoring Estimate Core Temperature in Anesthetized Children?	A419
<i>J. Leon, B. Bissonnette, and J. Lerman</i>	
EQUIPMENT, MONITORING, AND ENGINEERING TECHNOLOGY II	
Anesthesia Ventilator Performance, Delivered Tidal Volume, and PEEP.	A420
<i>P. H. Pan and J. J. van der Aa</i>	
Continuous Cardiac Output Measurement in ICU Patients.	A421
<i>M. L. Yelderman, M. A. Ramsay, M. D. Quinn, A. W. Paulsen, and R. C. McKown</i>	

Pulse Contour Analysis Derived Cardiac Output Determination: Comparison with Thermodilution in the ICU Setting. <i>G. Tannenbaum, D. Mathews, and C. Weissman</i>	A422
A Side-by-Side Comparison of Blood Gas Controls Using Four Different Blood Gas Analyzers. <i>D. A. MacGregor, P. E. Scuderi, L. C. Harris, D. L. Bowton, and J. Brockschmidt</i>	A423
Initial Clinical Experience Using <i>In Vivo</i> Optical Spectroscopy to Quantify Brain Oxygen Saturation. <i>D.S. Prough, P. E. Scuderi, G. Lewis, D. A. Stump, and M. Goetting</i>	A424
Measurement Offset with Liquid Crystal Temperature Indicators. <i>T. S. Shomake and D. G. Bjorkaker</i>	A425
Colorimetric End Tidal CO ₂ Monitoring During Interhospital Transport of Critically Ill Adult Patients. <i>P. A. Carli, A. Rozenberg, M. Bousquet, O. Lamour, and G. Orliaguet</i>	A426
A Simple Device for Testing Pulse Oximeters. <i>G. A. Volgyesi, R. Kolesar, and J. Lerman</i>	A427
EQUIPMENT, MONITORING, AND ENGINEERING TECHNOLOGY III	
Perioperative Decrease in Hepatic Venous Oxygen Saturation Affects Serum Transaminases After Liver Surgery. <i>M. Kainuma, N. Kimura, K. Nakashima, and Y. Shimada</i>	A428
Oxygen Saturation of Hepatic Vein Reflects the Changes in Hepatic Energy Charge in Rats. <i>K. Nakashima, M. Kainuma, N. Kimura, T. Kurokawa, and Y. Shimada</i>	A429
Locations of Retained Intracardiac Air in Coronary Artery Bypass Grafting Using Transesophageal Echocardiography. <i>K. Orihashi, Y. Hong, L. Keehn, P. L. Goldiner, and Y. Oka</i>	A430
Abnormal Findings of the Descending Thoracic Aorta in Patients Undergoing Coronary Artery Bypass Surgery Examined by Transesophageal Echocardiography. <i>K. Orihashi, L. Keehn, Y. Hong, D. Sisto, P. L. Goldiner, and Y. Oka</i>	A431
Skin-Surface Temperature Gradients Correlate with Fingertip Blood Flow. <i>E. H. Rubinstein and D. I. Sessler</i>	A432
Forced Air Warming Minimizes Hypothermia During Orthotopic Liver Transplantation. <i>S. D. Kelley, M. Csete Prager, D. I. Sessler, J. P. Roberts, and N. L. Ascher</i>	A433

Respiratory Effects of Medical Antishock Trousers.	A434
<i>J. L. Pansard, T. Lazard, B. Riou, and P. Viars</i>	
Computer Assisted CO₂ Monitoring Using "Artificial Neural Networks."	A435
<i>M. J. Navabi, R. C. Watt, S. R. Hameroff, and K. C. Mylrea</i>	
Detection of ST Segment Abnormalities Using Artificial Neural Networks.	A436
<i>M. J. Navabi, S. R. Hameroff, R. C. Watt, and K.C. Mylrea</i>	
Lorazepam Uptake by Different Designs of Membrane Oxygenators.	A437
<i>D. Rosen, K. Rosen, and P. Leong</i>	
Mixed Venous Oximetry in Cardiac Surgical Patients.	A438
<i>C. W. Hanson III and R. T. Geer</i>	

Documentation Time Requirement Computerized Information Management Systems Versus Handwritten Records.	A439
<i>D. W. Edsall</i>	

EQUIPMENT, MONITORING, AND ENGINEERING TECHNOLOGY IV

Indirect Calorimetry: Comparison of Two Methods in Ventilated Patients.	A440
<i>G. Oschmann, U. Föhring, M. Schafer, L. Hannemann, and K. Reinhart</i>	
Detection and Quantification of Mixed Volatile Anesthetics by Poet® II and a Mass Spectrometer.	A441
<i>L. C. Jameson</i>	
Comparison of Methods of Preoxygenation and Denitrogenation.	A442
<i>E. G. Chekan, S. Weber, and L. J. Wickas</i>	
Is Whole Body Oxygen Uptake a Good Indicator of Liver Allograft Function?	A443
<i>P. Albaladejo, E. Jugan, and A. Descamps-Declere</i>	
Effects of the Hemopump (HP) on Organ Blood Flow Distribution During Cardiogenic Shock in Dogs.	A444
<i>P. F. Wouters, T. Möllhoff, U. Mees, H. Van Aken, and W. Flameng</i>	
Evaluation of a Breathing Circuit Alarm System Based on Neural Networks.	A445
<i>J. A. Orr and D. R. Westenskow</i>	
Noninvasive Blood Pressure Monitoring Using Neural Networks.	A446
<i>P. D. Baker, J. A. Orr, and D. R. Westenskow</i>	
Response Time with Smart Alarms.	A447
<i>J. A. Orr, E. H. Simon, D. Ing, H.-J. Bender, and D. R. Westenskow</i>	

Auscultation at the Sternal Notch Does Not Distinguish Between Endotracheal and Esophageal Intubation.	A448
<i>A. R. Mizutani, G. Ozaki, J. L. Benumof, and M. S. Scheller</i>	
The Scimed Oxygenator and Fentanyl Uptake.	A449
<i>D. Rosen, K. Rosen, and P. Leong</i>	
Smart Anesthesia Monitoring System.	A450
<i>P. H. Pan, J. J. van der Aa, F. J. Gomez, J. H. van Oostrom, J. E. W. Beneken, and J. S. Gravenstein</i>	
Ultrasound Guided Cannulation of the Internal Jugular Vein.	A451
<i>C. A. Troianos, D. R. Jobes, and N. Ellison</i>	
POSTER III—EQUIPMENT AND ENGINEERING TECHNOLOGY	
Effect of Fresh Gas Flow on Inspired and Expired Concentrations of Anesthetics in Man.	A452
<i>H. Deriaz, E. Baras, and A. Lienhart</i>	
Pulsatile Flow During Cardiopulmonary Bypass for Coronary Surgery Fail to Influence Plasma Atrial Natriuretic Factor Concentration.	A453
<i>I. Deswarthe-Pipien, O. Ponzio, C. Barthelemy, P. Lobstin, J. N. Fabiani, A. Carayon, and M. Th. Cousin</i>	
Atelectasis and Pleural Fluid Examined by Transesophageal Echocardiography During Coronary Artery Bypass Grafting.	A454
<i>Y. Hong, K. Orihashi, L. Keehn, D. Sisto, P. L. Goldiner, and Y. Oka</i>	
A New Method for the Measurement of Continuous Cardiac Output: Pulse Contour.	A455
<i>H. Stern, J. W. Donovan, and R. L. Hines</i>	
Receiver Operating Characteristic (ROC) Curve Helps Optimize Blood Pressure Detection Algorithms.	A456
<i>D. F. Sittig, J. I. Clyman, K. H. Cheung, and P. L. Miller</i>	
Continuous Noninvasive Assessment of Brain Oxygenation and Blood Volume During Cardiopulmonary Bypass in Children Undergoing ASD Closure.	A457

POSTER IV—EXPERIMENTAL CIRCULATION	
Does Severe Normovolemic Hemodilution Adversely Affect Splanchnic Oxygenation?	A609
<i>G. F. Noldge, H. J. Priebe, K. J. Buttler, W. Muller, K. Armbruster, and K. Geiger</i>	
Bupivacaine and Myocardial Ischemia. Study in the Pig <i>In Situ</i> Heart.	A610
<i>M. Freysz, Q. Timour, J. Loufoua, L. Bertrix, I. Gerentes, and G. Faucon</i>	

Integrated Coronary and Systemic Hemodynamic Response to Graded Inspiratory Resistive Loading in Chronically Instrumented Anesthetized Dogs.	A611
<i>J. Peters and P. Ihle</i>	
A Rat Model of Chronic Hypoxia.	A612
<i>P. Rothstein and W. F. Cao</i>	
Coronary Microvessel Segmental Resistances During Vasodilation by Isoflurane, Nitroglycerin, and Adenosine in Dogs.	A613
<i>P. F. Conzen, H. Habazettl, M. Christ, H. Baier, B. Vollmar, A. E. Goetz, W. Brendel, and K. Peter</i>	
Blood Flow to Splanchnic Organs and Tissue Oxygenation of Liver and Pancreas During Enflurane-Induced Hypotension.	A614
<i>B. Vollmar, T. Kerner, M. Vierl, P. F. Conzen, H. Habazettl, H. Waldner, K. Peter, and W. Brendel</i>	
Alveolar Hypoxia Increases Plasma Endothelin-1 Level in Conscious Rats.	A615
<i>G. Shirakami, T. Magaribuchi, Y. Saito, K. Nakao, and K. Mori</i>	
Effects of Bunazosin, a New Alpha-1 Blocker, on Regional Myocardial Function in the Ischemic Canine Heart.	A616
<i>M. Kono, S. Morita, T. Hayashi, and T. Sato</i>	
Direct and Indirect Effects of Ketamine on Mammalian Ventricular Myocardium.	A617
<i>D. J. Cook, E. G. Caron, and P. R. Housmans</i>	
Ideal Mixture of Sodium Nitroprusside and Trimethaphan.	A618
<i>K. Nakazawa, C. Taneyama, K. T. Benson, H. Goto, and K. Arakawa</i>	
Benzodiazepine Antagonist, RO-15-1788, Antagonizes Cardiovascular Depressant Effect of Lorazepam.	A619
<i>K. Nakazawa, S. Ohara, C. Taneyama, G. K. Unruh, and K. Arakawa</i>	
Oral Dexmedetomidine Blunts the Hemodynamic Response to Emergence from Enflurane Anesthesia in Dogs.	A620
<i>L. T. Proctor, W. T. Schmelling, J. P. Kampine, and D. C. Warltier</i>	
Isoflurane and Halothane and Responses of Cultured Pig Coronary Artery Endothelial Cells.	A621
<i>C. Uhl, J. C. Sill, R. Nelson, M. E. Johnson, and G. Blaise</i>	
Prolongation of Permissible Hypothermic Circulatory Arrest Time in Dogs.	A622
<i>M. Mazzoni, D. Wolfe, H. Shiang, S. L. Lansman, A. M. Ergin, and R. B. Grieppe</i>	
Reactive Hyperemia After Hypothermic Circulatory Arrest in Dogs.	A623
<i>M. Mazzoni, C. K. Mezrow, R. S. Green, H. Shiang, S. L. Kugler, and R. B. Grieppe</i>	

The Effect of Propofol on Hepatic Blood Flow. <i>J. Diedericks, J. W. Sear, and P. Foex</i>	A624
Cerebral Vasodilating Effect of Sevoflurane Versus Isoflurane. <i>G. P. Lu, J. A. Gibson, E. A. M. Frost, and P. L. Goldiner</i>	A625
Effects of Esmolol on Cerebral Microcirculation. <i>M. Peck, G. P. Lu, J. Stathus, J. Gibson, and E. A. M. Frost</i>	A626
Pulmonary Vascular Response to Cyclooxygenase Inhibition Is Abolished During Halothane Anesthesia. <i>D. P. Nyhan, B. B. Chen, D. M. Fehr, P. Rock, and P. A. Murray</i>	A627
Successful Transplantation of Dog Hearts After 24 Hours Cold Storage. <i>T. Mollhoff, S. Sukehiro, W. Flameng, and H. Van Aken</i>	A628
Inotropic Effects of Nitroglycerin, Nitroprusside, and Trimethaphan on Isolated Rabbit Myocardium. <i>T. S. Lee, L. L. Virtusio, Y. L. Lin, and Y. Wu</i>	A629
Phlebotomy Reverses the Hemodynamic Consequences of Aortic Cross-Clamping. <i>W. A. C. Mutch, I. R. Thomson, J. Teskey, D. Thiessen, and M. Rosenbloom</i>	A630
Polyethylene Glycol Conjugated Superoxide Dismutase (PEG-SOD) Improves Recovery of Hypercapnic Reactivity (HYPR) Following Ischemia. <i>J. R. Kirsch, M. A. Helfaer, S. E. Haun, and R. J. Traystman</i>	A631
The Contribution of Carotid Chemoreceptors to Changes in Mesenteric Vein Diameter During Acute Hypercapnia in the Rabbit. <i>M. Tominaga, T. A. Stekiel, J. B. McCallum, Z. J. Bosnjak, and J. P. Kampine</i>	A632
Resuscitation Fluids for the Treatment of Hemorrhagic Shock in Dogs: Effects on Myocardial Blood Flow. <i>L. O. Larson and A. R. Tait</i>	A633
A Dose Response Study Comparing the Coronary Circulatory Effects of Isoflurane and Enflurane in the Normal Dog. <i>S. Elia and P. Liu</i>	A634
Effect of Hypertonic Saline Resuscitation on Myocardial Performance in a Hemorrhagic Shock Model: Assessment by Pressure–Volume Loops. <i>M. Mathru, M. W. Rooney, S. Vengurlekar, L. J. Hirsch, and T. K. Rao</i>	A635
Myocardial Intracellular Ca ⁺⁺ “Overload” Is the Cause of Arrhythmia During Hypokalemia. <i>R. F. Albrecht, P. B. Hansen, and D. J. Miletich</i>	A636

POSTER XI—EXPERIMENTAL CIRCULATION

- Effect of Diltiazem on Regional Left Ventricular Function in the Presence of Gradual Coronary Constriction in the Dog.** A637
A. H. Goldberg, J. Diederichs, J. W. Sear, W. A. Ryder, and P. Foex
- The Depressive Effect of Isoflurane on Myocardial Beta-Adrenergic Responsiveness Is Not Related to an Alteration of Beta-Receptor Density.** A638
J. P. Lancon, J. Marty, J. Delforge, M. Janier, and A. Syrota
- Tachycardia Increases the Extent of Right Ventricular Necrosis Following Right Coronary Artery Occlusion and Reperfusion.** A639
W. E. Johnston, J. Vinent-Johansen, and E. Tammasi
- Effects of Hematocrit on O₂ Tissue Extraction Capabilities.** A640
P. Van der Linden, E. Engelman, E. Gilbart, P. Paques, C. Simon, and J. L. Vincent
- Alteration of Vascular Responsiveness to Isoflurane and Halothane by the Endothelium.** A641
J. E. Brian, A. B. Seifen, and R. H. Kennedy
- Effects of Midazolam and Flumazenil on Coronary Circulation and Contractility of an Isolated Rabbit Heart.** A642
E. Samain, J. F. Baron, S. Mouren, S. Dreux, S. Soughir, and P. Viars
- Hypoxemia Does Not Inhibit Cardiac Mitochondrial Enzymes.** A643
P. Rothstein and W. F. Cao
- Halothane Decreases Ionic Fluxes Due to Metabolic Inhibition, Hypothermia, or Ischemia in Atrial Muscle Strips.** A644
R. G. Eckenhoff
- Total Coronary Resistance and Vessel Segment Resistances During Adenosine-Induced Hypotension.** A645
H. Habazettl, P. F. Conzen, M. Christ, H. Baier, B. Vollmar, K. Peter, and W. Brendel
- Effect of Leukopenia on Pulmonary Hypertension Following Heparin-Protamine in Pigs.** A646
H. Habazettl, P. F. Conzen, E. Yekebas, B. Vollmar, J. Hobbahn, K. Peter, and W. Brendel
- Inotropic Effect of Etomidate on Cardiac Papillary Muscle in Normal and Cardiomyopathic Hamsters.** A647
B. Riou, Y. Lecarpentier, and P. Viars
- The Role of the Endothelium in Modulating the Vasodilation Induced by Isoflurane in the Rabbit Basilar Artery.** A648
N. F. Jensen, M. M. Todd, D. J. Kramer, P. A. Leonard, D. S. Warner, and B. A. Bollen

Effects of Preload and Afterload on the Contraction of Postischemic Myocardium.	A649
<i>C. Buffington and R. Coyle</i>	
Attenuation of Baroreflex Response to Acute Hypotension by Nitroprusside During Intracoronary Infusion of ATP.	A650
<i>C. Taneyama, H. Goto, K. Nakazawa, G. K. Unruh, and K. Arakawa</i>	
Enflurane Inhibits Reflex Venoconstriction of Mesenteric Capacitance Vessels.	A651
<i>A. Stadnicka, Z. J. Bosnjak, and J. P. Kampine</i>	
Effects of Hemodilution on Retinal Blood Flow in Cats.	A652
<i>S. Roth and A. P. Crittenden</i>	
Conversion of Sodium Nitroprusside to Its Active Vasodilator, Nitric Oxide, Requires Chemical Reduction and Release of Cyanide.	A653
<i>J. N. Bates, M. T. Baker, and D. G. Harrison</i>	
Effects of Isoflurane on Coronary Flow and Development of Dysrhythmias During Ischemia and Reperfusion.	A654
<i>M. Boban, N. Buljubasic, D. F. Stowe, J. Marijc, and Z. J. Bosnjak</i>	
Effects of Vasoactive Agents, Hypoxia, and Volume on Estimation of Left Atrial Pressure in Pigs.	A655
<i>T. C. Gunning and A. W. Paulsen</i>	
Validity of Microsphere Determinations of Cerebral Blood Flow During Acute Hemodilution in Cats.	A656
<i>D. S. DeWitt, D. Deal, S. Vines, and D. S. Prough</i>	
Isoflurane Induces Coronary Steal Compared to Enflurane in a Dog Model of Critical Coronary Stenosis.	A657
<i>S. Elia and P. Liu</i>	
Heart-Rate-Dependent Effects of Volatile Anesthetics on the Cardiac Sacoplasmic Reticulum.	A658
<i>T. Winguth, N. Roewer, D. Hunerbein, E. Rumberger, and J. Schulte am Esch</i>	
Cardiac Output and its Distribution in Dogs Hemodiluted with 5% Albumin or 10% Hemoglobin.	A659
<i>M. Rooney, S. Wat, L. Hirsch, M. Mathru, and T. Rao</i>	
Midazolam and Flumazenil Decrease Vascular Tone in the Isolated Dog Saphenous Vein Preparation.	A660
<i>S. N. Glisson</i>	
Hypocapnia and Hypercapnia Cause Heterogeneous Changes in Regional Organ Blood Flow.	A661
<i>E. A. Czinn, M. R. Salem, and G. J. Crystal</i>	

Acute Vasodilatory Effect of Tumor Necrosis Factor (TNF) on the Rabbit Carotid Artery.	A662
<i>I. Philip, C. Bernard, A. Bousseau, D. Payen, and A. Tedgui</i>	
Amiodarone and Halothane: Effects on Canine Purkinje Fiber Action Potentials.	A663
<i>J. Gallagher, J. Bianchi, and L. Gessman</i>	
Mechanisms Mediating the Modulation of Baroreflex Regulation of Coronary Conductance by Fentanyl in Chronically Instrumented Dogs.	A664
<i>P. G. Moore, W. L. Porges, S. W. White, and A. W. Quail</i>	
Amrinone, Dobutamine, and Interaction Effects on Guinea Pig Heart Muscle.	A665
<i>R. C. Cork, S. Behr, and J. Gallo</i>	
EXPERIMENTAL NEUROSCIENCES AND BIOCHEMISTRY I	
Excitotoxins, Hypoxia, Hypoglycemia, Calcium, Magnesium, and Neuronal Damage.	A666
<i>B. M. Rigor, C. A. West, and A. Schurr</i>	
Ischemia-Mediated Metabolic Alterations Produce Activation of Corneal A-Delta and C Fibers.	A667
<i>M. B. MacIver and D. L. Tanelian</i>	
Halothane Enhances Tonic Gaba _A -Mediated Neuronal Inhibition by Elevating Intracellular Calcium.	A668
<i>I. Mody, M. B. MacIver, and D. L. Tanelian</i>	
CNS Cholinergic Mechanisms in Anesthesia.	A669
<i>J. R. Zucker and D. Calkins</i>	
Pentobarbital Increases cAMP Accumulation in S49 Cells Independent of Guanine Nucleotide Binding Proteins.	A670
<i>J. M. Gonzales and P. B. Molinoff</i>	
Effect of Transcutaneous Cranial Electrical Stimulation on Halothane Requirements in Rats.	A671
<i>J. Mantz, J. Azerad, A. Limoge, A. M. Thierry, J. Glowinski, and J. M. Desmonts</i>	
MK 801 Markedly Reduces Thiopental and Halothane Requirements in Rats.	A672
<i>J. Mantz and J. M. Desmonts</i>	
ATP Does Not Correlate with Recovery After Anoxia and Thiopental in the Rat Hippocampus.	A673
<i>I. S. Kass, J. E. Cottrell, and C. Chambers</i>	

EXPERIMENTAL NEUROSCIENCES AND BIOCHEMISTRY II

- Does Chronic Intracerebroventricular Infusion of Thiorphan Produce Tolerance and Dependence in Rat? A674
M. L. Eustache, A. Michael-Titus, R. Boussemame, and M. Costentin
- The Pattern of Brain Tissue Concentrations of Glutamine, Aspartate, Glycine, and Dopamine with Varying Durations of Global Cerebral Ischemia in the Rabbit. A675
A. J. Baker, M. H. Zornow, M. S. Scheller, and T. L. Yaksh
- Intracerebroventricular Potassium Channel Agonists Do Not Decrease MAC in Rats. A676
J. R. Zucker and D. Calkins
- Neurotoxicity of Intrathecal Midazolam in Rabbits. A677
J. M. Malinovsky, J. M. Mussini, A. Cozian, J. Y. Lepage, and M. Pinaud
- Cytochemical Localization of Ca-ATPase in Human Skeletal Muscle. A678
C. A. Hon, D. F. Landers, and A. A. Platts
- Anesthetics Fluidize Membrane Core and Surface Differently. A679
I. Ueda, Y. S. Tasi, and H. Kamaya
- The CBF Response to Isoflurane Following Brain Injury in the Rabbit. A680
R. Ramani, M. Todd, and D. Warner
- The Effect of MK-801 on CBF During Focal Cerebral Ischemia. A681
J. D. Drummond, T. S. Ruta, and D. J. Cole
- Effects of Isoflurane Anesthesia on the Blood–Brain Barrier Transport A682
O. Z. Chi, M. Anwar, A. K. Sinha, and H. R. Weiss
- The Effect of Chronic Morphine Administration on Spinal β -Endorphin Levels. A683
H. B. Gutstein, D. Bronstein, and H. Akil
- Methyguanidine Increases Evoked Release of Acetylcholine from Rat Brain. A684
Y. Ohta, S. Nitta, E. S. Vizi, H. Nagashima, and F. F. Foldes
- Thiopental Attenuates Anoxia-Induced Na and K Concentration Changes in the Rat Hippocampal Slice. A685
A. E. Abramowicz, I. S. Kass, and J. E. Cottrell

EXPERIMENTAL NEUROSCIENCES AND BIOCHEMISTRY III

- Intracoronary Infusion of ATP Attenuates Renal Sympathetic Nerve Activity Mediated by Ventricular Baroreceptors. A686
C. Taneyama, K. Nakazawa, H. Goto, and K. T. Benson

Effects of Propofol on Mitochondrial Oxidative Phosorylation in Rat Liver.	A687
<i>P. Bendriss, I. Nelson, P. Dabadie, and J. P. Mazat</i>	
Differential Effects of Inhalational Anesthetics on Sympathetic Ganglionic Transmission.	A688
<i>Z. J. Bosnjak, H. K. Schedewie, N. Boban, and J. P. Kampine</i>	
Preoptic Region Thermosensitive Single-Unit Neuronal Activity Is Reduced by Halothane.	A689
<i>K. A. Poterack, J. P. Kampine, and W. E. Schmeling</i>	
Ryanodine Binding in Swine Correlates with Strain Differences, Not Malignant Hyperthermia (HA) Susceptibility.	A690
<i>G. M. Vita, J. E. Fletcher, L. Tripolitis, P. A. Conti, and H. Rosenberg</i>	
Evaluation of CSF Concentrations of Glutamate During Spinal Cord Ischemia.	A691
<i>D. W. Amory, D. Jasaitis, W. Nicklas, and G. Zeevalk</i>	
The Cerebral Vasoactive Effects of MK-801, an Excitatory Amino Acid Inhibitor.	A692
<i>C. Zhang, J. T. Hamilton, and A. W. Gelb</i>	
High Concentrations of Barbiturates Can Enhance Neuronal Injury in Substrate-Deprived Cortical Cell Cultures.	A693
<i>R. G. Giffard, J. H. Weiss, and D. W. Choi</i>	
Effects of Propofol on Cerebral and Spinal Cord Blood Flow Autoregulation in Rats.	A694
<i>C. Werner, W. E. Hoffman, L. J. Segil, D. J. Miletich, and R. F. Albrecht</i>	
The Angiotensin Converting Enzyme Inhibitor Captopril Improves Neurologic Outcome from Incomplete Ischemia Rats.	A695
<i>C. Werner, W. E. Hoffman, E. Kochs, S. F. Rabito, and R. F. Albrecht</i>	
Microheterogeneity of the Ca^{2+} ATPase in Skeletal Muscle from Pigs with Malignant Hyperthermia (MH).	A696
<i>D. Mullikin-Kilpatrick, D. M. Ekenbarger, G. Welch, K. Townsend, and J. L. Leonard</i>	
Cutaneous Anesthesia: Effects of Propofol on Nonnoxious Responses of Spinal Dorsal Horn Neurons in Cats.	A697
<i>H. Uchida, J. G. Collins, K. Kishikawa, and H. Iwasaki</i>	

EXPERIMENTAL NEUROSCIENCES AND BIOCHEMISTRY IV

Reduction of Hypoperfusion and Prevention of EEG Changes in Trauma Plus Hemorrhagic Shock Using a Kappa Opiate Antagonist.	A698
<i>D. S. DeWitt, J. M. Whitley, and D. S. Prough</i>	

Effect of Secobarbital and Halothane on Cholinergic Binding to Neuronal Nicotinic Receptors.

A699

B. A. Dodson and L. M. Braswell

Malignant Hyperthermia Susceptibility (MHS): Hormone-Sensitive Lipase Suggested as a Candidate Gene.

A700

R. C. Levitt, V. A. McKusick, J. D. Shutack, T. Heiman-Patterson, H. Rosenberg, and J. E. Fletcher

Brain Bioenergetics During Cardiopulmonary Resuscitation.

A701

S. M. Eleff, C. Schleien, R. C. Koehler, D. Shaffner, B. Eberle, J. Tsitlik, H. Halperin, M. C. Rogers, and R. J. Traystman

Effects of Hypoglycemia and Hypocarbia on Brain pH, ATP Phosphocreatine, and Blood Flow by NMR Spectroscopy.

A702

S. A. Derrer, F. E. Sieber, R. C. Koehler, R. J. Traystman, and C. D. Saudek

Dose-Related Changes in CBF and CMRO₂ During Propofol Infusions in Rabbits.

A703

PEDIATRIC ANESTHESIA I

- Cricoid Pressure Prevents Gaseous Distention of the Stomach During Manual Inflation of the Lungs in Infants. A1090
L. H. Feld, J. H. Archer, R. R. Kreitzman, and J. G. Brock-Utne
- Does Anemia Increase the Risk of Postoperative Apnea in Former Preterm Infants? A1091
L. G. Welborn, R. S. Hannallah, T. Higgins, R. Fink, and N. Luban
- Blood Glucose Levels and Current Pediatric Guidelines. A1092
J. M. Hongnat, I. Murat, C. Mathey, and C. Saint-Maurice
- Perioperative Effect of Anesthesia on Superoxide Production in Neonates and Infants. A1093
K. Mikawa, N. Maekawa, H. Obara, Y. Uetani, and H. Nakamura
- Rectal Ketamine Versus Intranasal Ketamine as Premedicants in Children. A1094
S. K. Tsai, M. S. Mok, and M. Lippmann
- Emergence Respiratory Complications in Children: A Comparison Between Halothane and Isoflurane in Children Extubated Deep or Awake. A1095
D. R. Pounder, D. Blackstock, and D. J. Steward
- Intraocular Pressure Changes After Tracheal Intubation in Children. A1096
M. F. Watcha, P. F. White, F. C. Chu, and J. L. Stevens
- Caudal Epidural Anesthesia in Sixty-Nine Conscious Premature and High-Risk Infants. A1097
J. B. Gunter, C. M. Dunn, R. J. Bower, and J. L. Ternberg
- Epinephrine and Caudal Epidural Anesthesia in Infants: Onset, Duration, and Hemodynamic Effects. A1098
J. B. Gunter, C. M. Dunn, R. J. Bower, and J. L. Ternberg
- Effect of Concomitant Analgesic Therapy on the Awakening Concentration of Halothane in Children. A1099
M. F. Watcha, R. G. Lagueruela, and P. F. White
- Effect of the MAST on Intracranial Pressure in Children. A1100
P. Meyer, P. Jayais, G. Quenét, and G. Barrier
- Prevention of Venous Air Embolism in Pediatric Neurosurgical Procedure by Using MAST. A1101
P. Meyer, P. Jayais, G. Quenét, and G. Barrier

PEDIATRIC ANESTHESIA II

- Patient-Controlled Analgesia in Children and Adolescents: A Randomized Comparison with Intramuscular Morphine. A1102
C. B. Berde, J. D. Yee, B. M. Lehn, L. J. Moore, and N. F. Sethna
- Pharmacodynamics of High-Dose Vecuronium in Children During Balanced Anesthesia. A1103
M. Sloan, B. Bissonnette, and J. Lerman
- Cardiovascular Responses During Desflurane Anesthesia in Infants and Children. A1104
R. H. Taylor, J. Lerman, N. Sikich, and B. Shandling
- Spontaneous Minute Ventilation During Halothane Anaesthesia in Infants and Children. A1105
K. A. Brown, B. Bissonnette, H. Holtby, L. Gerus, B. Macpherson, S. H. Ein, and B. Shandling
- Intraoperative Anaphylaxis to Latex: An Identifiable Population at Risk. A1106
B. M. Braude, M. Gold, J. S. Swartz, J. Dolovich, and B. Shandling
- Cerebral Blood Flow and Metabolism Are Independent of Pump Flow Rate During Hypothermic Cardiopulmonary Bypass in Children. A1107
F. H. Kern, W. J. Greeley, R. M. Ungerleider, T. J. Quill, B. Baldwin, L. R. Smith, and J. G. Reves
- Continuous Epidural Infusion of 1/8% Bupivacaine for Postoperative Pain Relief in Pediatric Urology Patients. A1108
J. A. Bires and D. G. McGregor
- Evaluation of Brain Oxygenation During Cardiopulmonary Bypass and Total Circulatory Arrest in Children by Near-Infrared Spectroscopy. A1109
V. A. Bracey, W. J. Greeley, J. A. Greibel, F. H. Kern, J. M. Ungerleider, J. G. Reves, and C. A. Piantadosi
- Stress Responses in Children Undergoing Open Heart Surgery. A1110
S. A. Vithun, B. Scott, W. W. Backus, M. R. G. LaGade, and P. J. Poppers
- Small Volume Hypertonic NaCl Resuscitation in a Pediatric Hemorrhagic Model. A1111
C. Ramamoorthy, M. Rooney, S. Wat, J. Kalatheeveetil, M. Mathru, and T. L. K. Rao
- Effects of Vecuronium on the Flexor Hallucis Brevis Compared with the Adductor Pollicis in Anesthetized Children. A1112
B. W. Brandom, E. Georgiu, and D. R. Cook
- Differential Rate of Recovery of Neuromuscular Function in the Adductor Pollicis and the Flexor Hallucis After Vecuronium. A1113
B. W. Brandom, R. L. Stiller, D. R. Cook, and A. M. Scierka

PEDIATRIC ANESTHESIA III

- Anesthesia for Pediatric Cancer Patients: Ketamine, Etomidate, or Propofol? A1114
S. Barst, R. McDowall, M. Pratila, C. Scher, S. Shah, R. Alagesan, G. Lafourcade, and F. Poremba
- Sufentanil and Fentanyl Anesthesia for Adenotonsillectomy in Pediatric Patients. A1115
D. G. Spence, S. Pinto, M. Lyew, and J. M. Henderson
- Halothane Concentration Blocking Cardiovascular Responses to Incision in Infants and Children. A1116
Y. Ishizawa and S. Dohi
- Interaction of Fentanyl and Nitrous Oxide on Cerebral and Peripheral Hemodynamics in Newborn Lambs. A1117
M. Yaster, R. C. Koehler, and R. J. Traystman
- Hemodynamic Alterations During Autologous Blood Donation for Children in Severe Cyanotic Heart Disease. A1118
H. Gombotz, J. Stein, Ch. Suppan, H. Metzler, and A. Beitzke
- Respiratory Complications and Hypoxic Episodes During Induction with Isoflurane in Children: Effect of Induction Technique. A1119
D. Warde, H. Nagi, and S. Raftery
- Effects of Cardiopulmonary Bypass on Alfentanil Pharmacokinetics and Protein Binding in Infants and Children. A1120
P. J. Davis, R. L. Stiller, and D. R. Cook
- Evaluation of Adolescents' Preference and Perception of Anesthesia Induction. A1121
I. T. Cohen, D. Atkins, and R. Hannallah
- Drinking Before Discharging Children from Day Surgery: Is it Necessary? A1122
T. Martin, L. Whitney, J. Seidl-Friedman, S. Nicolson, and M. Schreiner
- Hypotension, Flushing and Bronchospasm in Myelodysplasia Patients. A1123
R. S. Holzman, N. F. Sethna, and S. Sockin
- Incidence of Hypoxemic Events During Anesthesia in Children with Upper Respiratory Infection. A1124
N. Rolf and C. J. Coté
- A Single-Blind Study of Combined Pulse Oximetry and Capnography in Children. A1125
N. Rolf, C. J. Coté, L. M. P. Liu, N. G. Gousouzian, and J. F. Ryan

PEDIATRIC ANESTHESIA IV

Continuous Transtracheal Doppler Cardiac Output Determination in Pediatric Patients: Correlation with Transthoracic Continuous-Wave Doppler Cardiac Output.

A1126

M. F. Newman, E. G. Sanders, D. C. McCurnin, T. W. Martin, and R. W. Morrow

Isoproterenol for Test-Dosing in Pediatric Regional Blockade.

A1127

M. Perillo, N. F. Sethna, and C. B. Berde

Continuous Epidural Bupivacaine–Fentanyl Infusions in Children Following Ureteral Reimplantation.

A1128

C. B. Berde, N. F. Sethna, T. A. Yemen, J. Pullerits, and V. Miler

Efficacy and Safety of Low-Dose Caudal Morphine for Postoperative Analgesia in Infants and Young Children.

A1129

A. M. Savarese, F. X. McGowan, T. H. Oh, and T. Z. O'Connor

Improved Automated Noninvasive Blood Pressure Monitoring in Infants.

A1130

D. Siker and L. T. Proctor

Association of Airway Obstruction, Hypoxemia, and Postoperative Apnea in Preterm Infants.

A1131

<i>P. L. Commin, H. Lu, C. Soria, J. P. Caen, A. Piwnica, and E. Echter</i>	
Is the Thromboelastograph a Clinically Useful Predictor of Blood Loss After Bypass?	A1206
<i>D. F. van Riper, J. C. Horow, and D. Osborne</i>	
Changes in Heart Rate Variability Correlate with Decreases in Blood Pressure.	A1207
<i>T. W. Latson, D. C. Martin, C. W. Whitten, V. A. Hyndman, and J. Elmore</i>	
Contrast Echocardiography: The Direct, On-Line, Intraoperative Assessment of Regional Myocardial Perfusion During CABG Surgery.	A1208
<i>S. Aronson, B. K. Lee, J. Wiencek, S. B. Feinstein, M. F. Roizen, R. B. Karp, and J. E. Ellis</i>	
Improved Intraoperative Detection of Interatrial Shunts by Transesophageal Echocardiography.	A1209
<i>S. Konstadt, E. Louie, D. Kanuri, T. Rao, and P. Scanlon</i>	
Is Coronary Revascularization Using the Internal Mammary Artery Contraindicated in Patients with COPD?	A1210
<i>R. McCarthy, K. Tuman, and A. Ivankovich</i>	

POSTER DISCUSSION II—CLINICAL NEUROSCIENCES

Effects of Clonidine Premedication in Neurosurgical Patients.	A1211
<i>D. Gaumann, E. Tassonyi, R. Rivest, M. Fathi, and A. Reverdin</i>	

The Response of the Canine Cerebral Circulation to Hyperventilation During Anesthesia with Desflurane.	A1212
<i>L. J. Lutz, H. J. Milde, and L. N. Milde</i>	
EEG Effects During "Steady-State" Infusion of Midazolam: Development of Acute Tolerance?	A1213
<i>L. T. M. Breimer, A. G. I. Burm, M. Danhof, P. J. Hennis, and J. Spierdijk</i>	
Paraben Preservatives Do Not Cause Increased ICP in Cats.	A1214
<i>L. Pompy, A. Karlin, C. M. Capuano, J. Hartung, and J. E. Cottrell</i>	
The Effect of Desflurane on Cerebrospinal Fluid Pressure in Neurosurgical Patients.	A1215
<i>D. A. Muzzi, T. J. Losasso, N. M. Dietz, R. J. Faust, and L. N. Milde</i>	
Midazolam for Coinduction of Thiopental Anesthesia in Patients.	A1216
<i>H. R. Vinik, E. L. Bradley, Jr., and I. Kissin</i>	
Impact of Propofol on Intracranial Dynamics in Head Trauma ICU Patients.	A1217
<i>C. Weinstabl, N. Mayer, H. Plattner, C. K. Spiss, and A. F. Hammerle</i>	
Human EEG Dose Response to Desflurane.	A1218
<i>I. J. Rampil, S. H. Lockhart, E. I. Eger, and R. B. Weiskopf</i>	
The Effect of 1-MAC Isoflurane on Cerebrovascular Response to Increased or Decreased Cerebral Perfusion Pressure.	A1219
<i>R. W. McPherson, S. A. Derrer, and R. J. Traystman</i>	
Comparison of European and North American Protocols for Diagnosis of Malignant Hyperthermia (MH) with Halothane.	A1220
<i>H. Rosenberg, J. E. Fletcher, J. Davidson, P. A. Conti, and F. J. Huggins</i>	
Does Isoflurane Affect the Cerebrovascular Response to Carbon Dioxide in Anesthetized Children?	A1221
<i>J. Leon, B. Bissonnette, and J. Lerman</i>	
The Influence of Hydroxyethylstarch (HES) on Coagulation in Neurosurgery.	A1222
<i>Y. Claes, M. Vangerven, J. Arnout, J. Vermylen, and H. van Aken</i>	
POSTER DISCUSSION III—CRITICAL CARE	
Consequences of Prolonged Endotracheal Intubation on the Swallowing Reflex.	A1223
<i>V. de Larminat, B. Dureuil, P. Montravers, A. Amous, and J. M. Desmonts</i>	
Incidence of Maxillary Sinusitis in Recently Intubated Critically Ill Patients.	A1224
<i>M. Gosgnach, S. Ghedira, J. Xiang, J. J. Rouby, M. H. Nicolas, A. Zouaoui, C. Marceau, and P. Viars</i>	

Electron Microscopic Localization of Antioxidant Enzymes in Rat Lung.	A1125
<i>D. B. Coursin, H. P. Cihla, C. B. Bindley, I. H. Wallow, T. D. Oberley, and L. W. Oberley</i>	
The Effect of Extracorporeal Membrane Oxygenation (ECMO) on Cerebral Blood Flow (CBF) Autoregulation in the Newborn Lamb.	A1226
<i>K. S. Bender, B. L. Short, L. K. Walker, M. D. Jones, and R. J. Traystman</i>	
Hemodynamic and Metabolic Effects of Sodium Bicarbonate Carbicarb, and Hypertonic Saline in Lactic Acidosis.	A1227
<i>E. Benjamin, J. K. Wang, A. Abalos, A. Klapholz, J. Oropello, and T. J. Iberti</i>	
Real Time ST Segment Analysis Following Abdominal Aortic Aneurysm Resection.	A1228
<i>D. M. Mathews and C. Weissman</i>	
Vecuronium Infusion Versus Meperidine in the Treatment of Shivering Following Cardiopulmonary Bypass.	A1229
<i>J. J. Fassero, J. Z. Berend, and R. N. Sladen</i>	
Amrinone Increases Venous Admixture and Decreases Arterial Oxygenation (PaO_2) After Coronary Artery Bypass Graft (CABG) Surgery.	A1230
<i>R. C. Priellipp, J. F. Butterworth IV, G. P. Zaloga, P. G. Robertie, and R. L. Royster</i>	
Nitrendipine and Superoxide Dismutase Reduce Ischemic Renal Injury.	A1231
<i>R. M. Schell, W. K. Jacobsen, J. S. Matsumura, D. J. Cole, and S. C. Stewart</i>	
Total Parenteral Nutrition (TPN) Increases Mortality Following Methotrexate-Induced Endogenous Sepsis.	A1232
<i>G. P. Zaloga, R. C. Priellipp, and K. A. Ward</i>	
Airway Pressure Release Ventilation: Importance of Expiratory (Release) Time.	A1233
<i>D. Smith, M. Leon, T. Diaz, and N. Rachman</i>	
Pulmonary Capillary Pressure Changes Following Smoke Inhalation in Sheep.	A1234
<i>T. Isago, L. D. Traber, D. N. Herndon, and D. L. Traber</i>	
POSTER DISCUSSION IV—PEDIATRIC ANESTHESIA	
The Additive Contribution of N_2O to Halothane MAC in Infants and Children.	A1235
<i>D. J. Murray, M. P. Mehta, R. B. Forbes, and D. L. Dull</i>	
Incidence of Bloody Taps (BT) During Pediatric Caudal Blockade.	A1236
<i>L. van Obbergh, F. Veyckemans, and J. M. Gouverneur</i>	

Optimum Concentration of Bupivacaine for Balanced General/Caudal Anesthesia in Children.	A1237
<i>J. B. Gunter, C. M. Dunn, J. B. Bennie, D. M. Pentecost, R. J. Bower, and J. L. Ternberg</i>	
Enoximone: A New Therapeutic Concept in Right Ventricular Repair in Pediatric Surgery.	A1238
<i>P. Jayais, P. Mauriat, P. Pouard, and D. Journois</i>	
Total Intravenous Anesthesia with Propofol and Without Intubation for Magnetic Resonance Imaging (MRI) in Pediatric Patients.	A1239
<i>M. Vangerven, P. Wouters, E. Vandermeersch, and H. van Aken</i>	
Postductal Hypoxemia Is Associated with Plasma Eicosanoids in Neonates with Congenital Diaphragmatic Hernia (CDH).	A1240
<i>D. K. Nakayama, R. Evans, and E. K. Motoyama</i>	
Pulmonary Effects of Preoperative Extracorporeal Membrane Oxygenation in Congenital Diaphragmatic Hernia.	A1241
<i>D. K. Nakayama, E. K. Motoyama, S. D. Smith, and E. P. Tagge</i>	
Hemodilution for Heart Surgery in Children.	A1242
<i>D. Rosen, K. Rosen, E. Bove, L. Callow, and N. Wilton</i>	
Oral Midazolam Premedication: Optimal Timing and Effect of Atropine.	A1243
<i>B. C. Weldon, M. Watcha, and P. F. White</i>	
Cerebral Hemodynamics During Hypothermic Low-Flow Bypass.	A1244
<i>M. A. Pilato and P. R. Hickey</i>	
Nitrous Oxide Does Not Increase Postoperative Nausea/Vomiting in Pediatric Outpatients Undergoing Tonsillectomy–Adenoideectomy.	A1245
<i>U. Pandit, S. Pryn, G. Randel, L. Levy, and I. Lewis</i>	
Induction and Recovery Characteristics of Desflurane in Infants and Children.	A1246
<i>R. Taylor, J. Lerman, N. Sikich, and B. Shandling</i>	
POSTER DISCUSSION V—PATIENT SAFETY, EPIDEMIOLOGY, AND EDUCATION	
Effect of Outcome on Physician Judgments of Appropriateness of Care.	A1247
<i>R. A. Caplan, K. L. Posner, and F. W. Cheney</i>	
A Prospective Analysis of Reported Significant Observations During Anesthesia.	A1248
<i>V. Chopra, J. G. Bovill, J. Spierdijk, and F. Koornneef</i>	
The Effect of Pulse Oximetry, Age, and ASA Physical Status on Severity of Anesthesia Complications: An Outcome Analysis.	A1249
<i>D. J. Cullen, A. R. Nemeshkal, J. B. Cooper, A. Zaslavsky, and M. J. Dwyer</i>	

Does 360 ml of Apple Juice Before Elective Surgery Increase Aspiration Risk Factors? <i>R. D. Vincent, C. L. Spaid, T. J. McNeil, F. R. MacMahon, and S. J. Maxwell</i>	A1250
Slow Injection of Midazolam Does Not Reduce the Risk of Hypoxia. <i>L. E. Teller, C. M. Alexander, and J. B. Gross</i>	A1251
Oxygen Saturation Following Administration of Buprenorphine or Morphine During the Postoperative Period. <i>M. Fischler, C. Basdevant, M. Gauthe-Feissel, L. Raffin, and M. Sperandio</i>	A1252
Correlation Between Two Physical Status Measures and the ASA Physical Status Score. <i>D. Coalson, M. F. Roizen, J. Apfelbaum, G. Rupani, R. Roberts, R. Finn, B. Schreider, J. L. Lichtor, A. Uitvlugt, and R. Thisted</i>	A1253
How Frequently Do Asymptomatic Patients Benefit from the Pursuit of Abnormalities in Their Preoperative Test Results? <i>J. Apfelbaum, M. F. Roizen, D. Robinson, W. J. Murray, A. W. Grogono, P. Duke, S. Kim, J. R. Roberts, G. Rupani, P. Texidor, G. Gronert, P. F. White, S. M. Poler, D. Coalson, J. A. Youngberg, R. Dionne, C. Stocking, and R. Thisted</i>	A1254
Trust, But Verify: The Accuracy of References in Four Anesthesia Journals. <i>M. F. McLellan, J. K. Brockschmidt, and M. C. Barnett</i>	A1255
Incidence and Treatment of Postanesthesia Shivering. <i>M. S. Heffine, S. A. Dublin, B. J. Brown, and H. G. Jense</i>	A1256
Incidence of Anti-Protamine Antibody in Vasectomized Males. <i>U. Adourian, E. Fuchs, N. F. Adkinson, and C. A. Hirshman</i>	A1257
Circulatory, Neurologic, and Blood Gas Changes During Total Knee Replacement: Role of the Intramedullary Alignment Rod. <i>N. R. Fahmy, H. P. Chandler, K. Daylchuk, N. Sunder, and E. Matta</i>	A1258
POSTER DISCUSSION VI—LOCAL ANESTHESIA AND PAIN	
Subarachnoid EDTA Induces Hindlimb Myoclonus in Rats. <i>B. C. Wang, D Li, J. M. Hiller, E. J. Simon, G. Dubzilovich, D. E. Hillman, and H. Turndorf</i>	A1259
Antinociceptive Effect of Intrathecal Midazolam and Fentanyl in Sheep. <i>V. A. Arkoosh and M. C. Norris</i>	A1260
Cross-Tolerance and Synergy Between Intrathecal Tizanidine and Morphine. <i>T. Lubenow, R. McCarthy, R. Penn, and A. Ivankovich</i>	A1261

Effect of Magnetic Field Therapy (MFT) on Substance P (SP) and Methionine Enkephalin (MEK) in a Rat Model of Chronic Pain.	A1262
<i>W. Parris, R. Naukam, K. Lindsey, L. Bowers, E. Fraifeld, W. Wright, and J. R. Kambam</i>	
Patterns of Epidural Steroid Use by Anesthesiologists in Illinois.	A1263
<i>M. Shulman, O. Ivankovich, and A. Ivankovich</i>	
The Role of Continuous Infusion in Supplementing Alfentanil PCA.	A1264
<i>H. Owen, J. C. Currie, J. L. Plummer, and R. Teitzel</i>	
Direct Observation of the Epidural Space by the Superfine Fiberscope.	A1265
<i>M. Imai</i>	
Long-Acting Opiods Administered in the Recovery Room Provide More Satisfactory Postoperative Analgesia.	A1266
<i>B. Henelten, I. Schwieger, and A. Forster</i>	
Clonidine Does Not Cause Epidural Inflammatory Changes.	A1267
<i>F. X. Robichaux and R. S. Cicala</i>	
A Comparison of Epidural and Intravenous PCA After Gynecological Surgery.	A1268
<i>P. N. H. Walmsley, F. J. McDonnell, G. W. Colclough, L. D. Kennedy, W. O. Witt, R. Littrell, and N. W. Pedrito</i>	
Antinociception and CO₂ Response Following Spinal and Systemic Dexmedetomidine in Dogs.	A1269
<i>M. B. Sabbe, J. P. Penning, and T. L. Yaksh</i>	
Involvement of Spinal Opioid Receptors in Midazolam Induced Antinociception	A1270
<i>G. A. Tejwani, A. K. Rattan, and J. S. McDonald</i>	
RESIDENT RESEARCH ESSAYS	
Effects of Nitrous Oxide on Contractility and Relaxation of Isolated Mammalian Ventricular Myocardium.	A1271
<i>E. G. Carton, L. A. Wanek, and P. R. Housmans</i>	
The Effect of Insulin Infusion on Brain and Blood Glucose in Hyperglycemic Diabetic Rats.	A1272
<i>R. E. Hofer and W. L. Lanier</i>	
Continuous Infusion of d-Tubocurarine Induces Tolerance and Increases in Nicotinic Acetylcholine Receptors.	A1273
<i>C. W. Hogue, Jr., M. S. Itani, and J. A. J. Martyn</i>
